SPEED

He's a pacey player, a real asset on the break and in defensive-to-offensive transitions. Whether he's on the ball or making off-the-ball runs, he attacks the space and leaves defenders in the dust. His burst of speed and change of pace make him a nightmare to deal with.

COMBINATION PLAY

He's got great chemistry with teammates in his area. Often rotates positions with the fullback to cut inside or open up space for overlapping runs down the flank. When they pull off 2v1s against defenders, it's consistently dangerous.

DRIBBLING

He's got a deep bag of tricks when it comes to dribbling. Loves to throw in body feints to shake off defenders and has a sharp zig-zag motion that keeps them guessing. His quick footwork and close control often draw fouls in dangerous areas.

Tactical analysis

PROSPORT
MANAGEMENT

INTENSITY

He's a high-energy player, relentless in pressing and doing the dirty work defensively. Always active, constantly making himself available for passes and staying involved throughout the match. His aggressive pressing and tight marking often lead to key ball recoveries.
