A More Hands-on-Approach

What to expect when you work with your design team

I

1:1 with designer

Schedule a one-on-one video call with your designer to discuss project details, your wish list, and budget. They'll create a tailored design that brings your unique vision to life.

II

Review & Iterate

Need to fine-tune your design? You can schedule follow-up calls with your designer or easily share ideas and feedback by leaving notes on our platform.

III

Finalize & prepare for installation

Once you approve the design, your designer will create all the necessary CAD plans and documents for your contractor, ensuring a smooth transition to the installation phase.

IV

Contractor match (optional)

Every design includes free contractor matching and build support to bring your dream yard to life. Our nationwide network features experienced, licensed, and insured local professionals. Our support team is also on hand to answer any questions from you or your installer.

How do you measure my property accurately without visiting in person?

We use high-resolution satellite images, detailed topographical maps, publicly accessible data about your property, property photos, and a video tour of your property. From this combination of resources, we craft a precise 3D model of your property, complete with all necessary dimensions, contours, slopes, and drainage details.

FAQ

Will you incorporate existing elements into my design?

Absolutely, we'll custom-build 3D models for any existing items you want to keep, whether it's existing patios, existing furnishings, or plants.

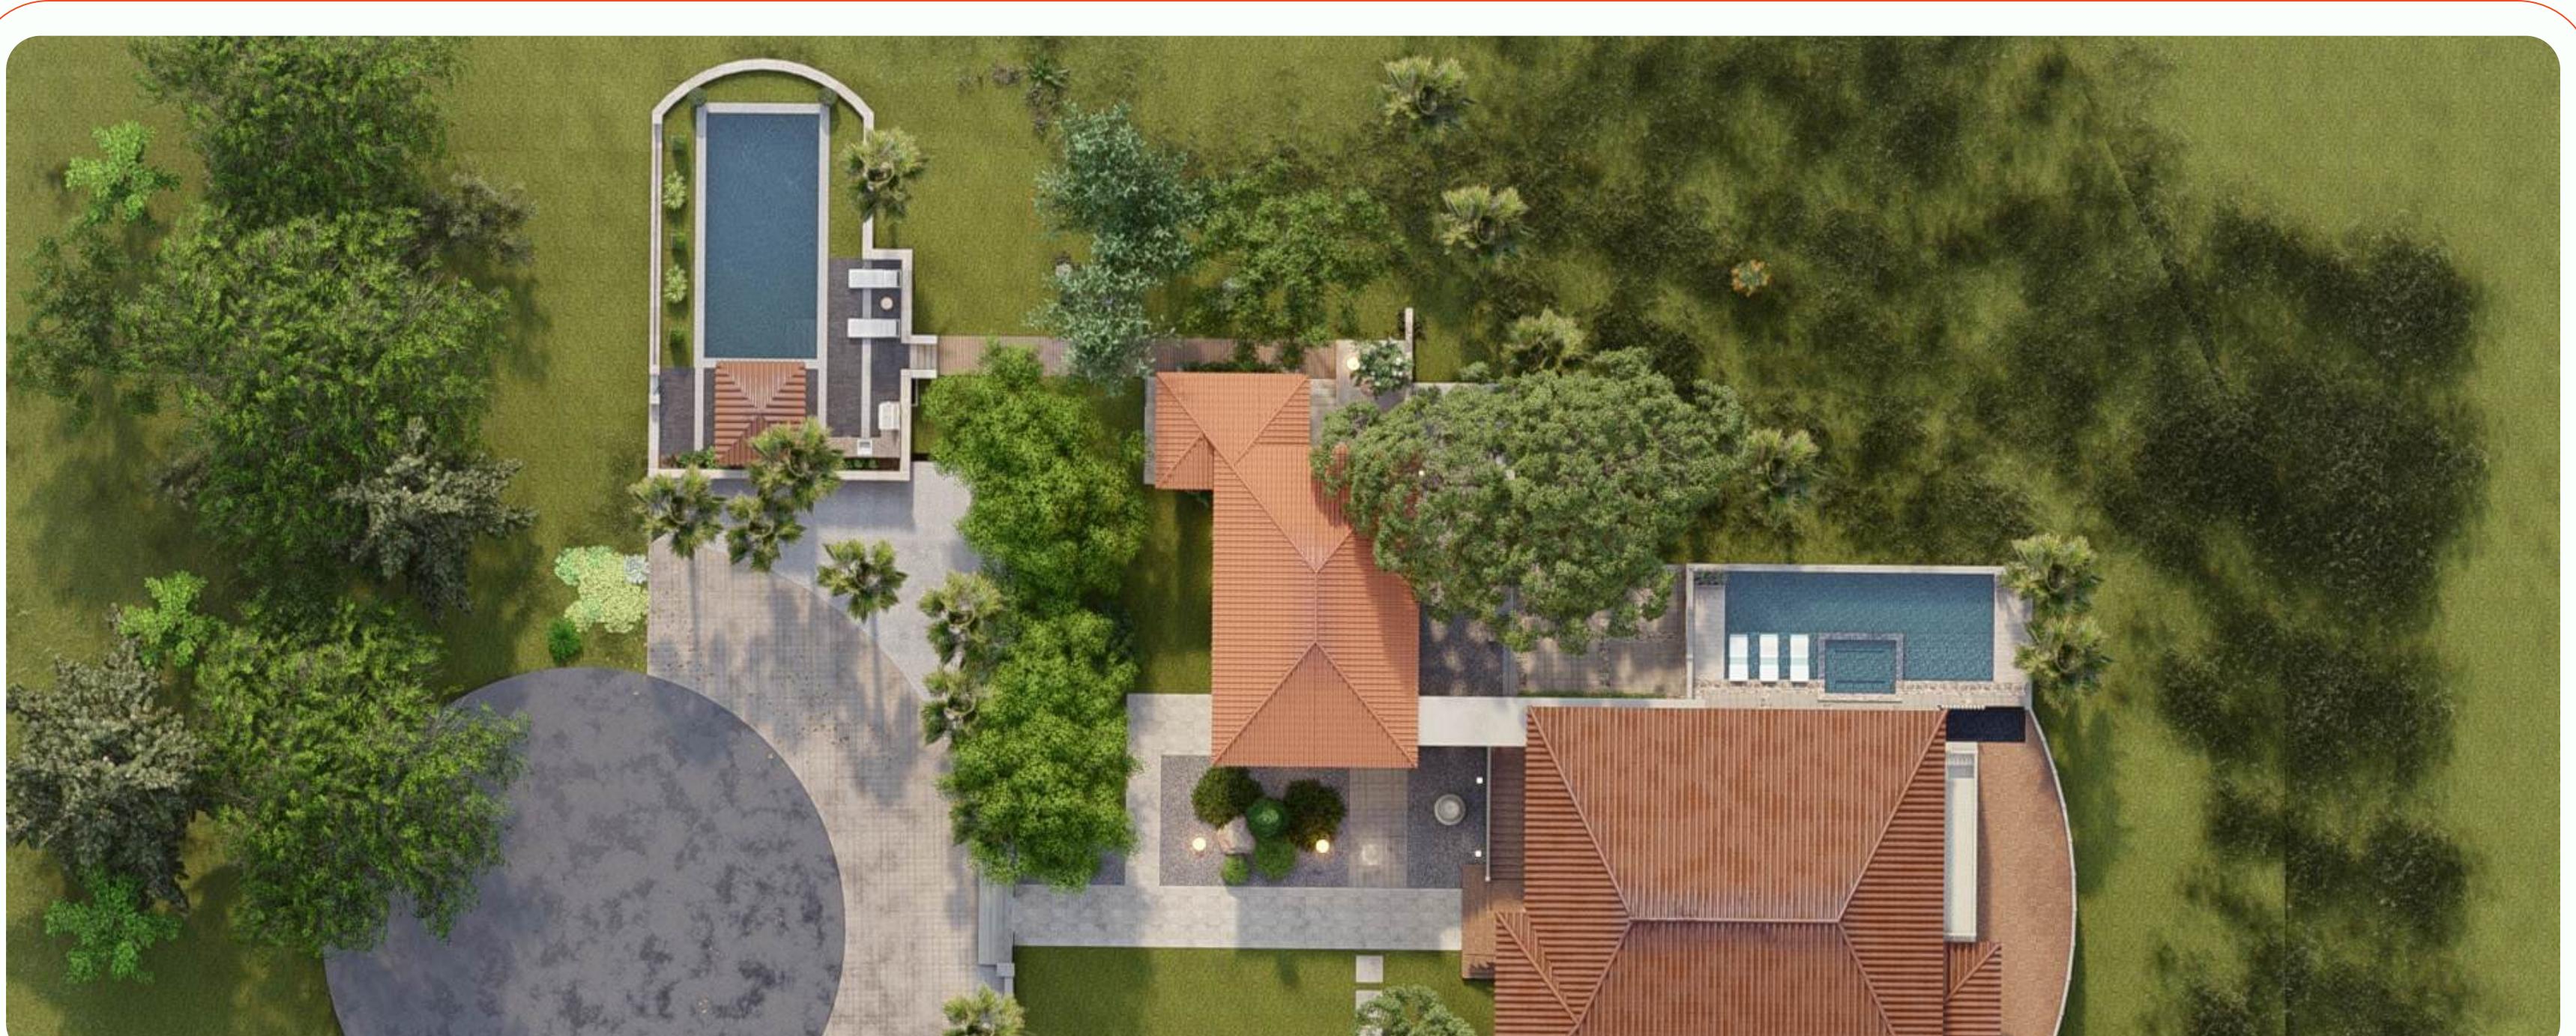

FAQ

Is there a limit to the number of 3D render views I can get with the package?

There's no limit. Although we initially provide 25 photos, you're welcome to request more 3D views of your design at no extra charge.

Will I receive a cost estimate for the design installation?

Yes, we provide a rough estimate for installing your design. We can also connect you with a contractor for a more precise on-site estimate.

FAQ

Can your services accommodate Homeowners Associations (HOAs) and their guidelines?

Certainly. During the onboarding process, we'll ask about your HOA and request their guidelines. We'll follow these closely at no extra cost.

FAQ

How much time should I expect for revisions to be completed?

Revision timelines can vary, depending on the complexity of your request. For minor tweaks, we're often able to accommodate by the next day. However, if you're looking for a comprehensive redesign, we ask for up to a week to perfect your vision.

What happens if I'm not ready to request changes immediately? Can I pause my project or do I lose my chance for revisions?

Not at all! We understand that you may need some time to consider your design. That's why we offer the flexibility to put your project on pause once. Take all the time you need. When you're prepared to move forward with revisions, just let us know, and the revision period will continue from where we left off.

FAQ

Do you only design in certain styles? How about my style?

We offer a broad selection of expert designers skilled in various landscape styles, we guarantee that we have a designer who specializes in your specific aesthetic.
