Employment history

UI & Web Designer (Contractor)

MortarStone — Feb 2023 - Present

- Crafting UI solutions for various app features, translating requirements into user friendly screens in Figma.
- Work with development and marketing teams to shape user flows and ensure consistent, engaging user interfaces.
- Created reusable Figma components and styles to ensure design consistency and streamline future work.
- Led a full responsive website redesign, creating wireframes, mockups, and interactive prototypes in Figma and building the site in Webflow to improve visual polish and usability.

Freelance Web Designer

Self-Employed — Mar 2024 - Present

- Work closely with clients to understand their goals, audience, and content needs, turning insights into intuitive, on-brand designs.
- Design responsive websites with clean layouts and attention to visual hierarchy and consistency.
- Offer creative direction and support on brand assets, including color palettes and typography.

UX Design Intern

Kentik — May 2022 - Oct 2022

- Designed a complex data table component end-to-end, from low-fidelity wireframes to interactive Figma prototypes.
- Collaborated with product and engineering leads to align vision and secure stakeholder buy-in.
- Delivered assets and documentation to streamline implementation and ensure consistency with existing design system.
- Partnered with marketing team to ideate and refine design system logo direction.

Freelance UI/Web Designer

OMA — Sep 2021 - Dec 2021

- Designed and built responsive landing page from wireframes to high-fidelity mockups using OMA brand assets.
- Created interactive mobile and tablet prototypes for an early-stage app, ensuring alignment with established visual identity.

Freelance Web & Graphic Designer

Wounded Heart Ministry NYC — Jan 2018 - Jul 2020

- Developed and maintained a responsive website, regularly updating blog content, images, and internal links to keep information current.
- Designed custom branding materials, including logos, business cards, and t-shirt mockups aligned with client's brand.

Freelance Frontend Developer

Faith City Outreach LLC — Aug 2020 - Oct 2020

- Built a responsive website using HTML, CSS, and light JavaScript to better organize and present radio guest information.
- Partnered with client to deliver user-focused design solutions tailored to their content and audience needs.

Training

- **Google UX Design Certification**, Coursera
- **Webflow Certifications**
- **Visual Design & Frontend Track**, Skillcrush
