This role reports to the Director Of Manufacturing and is responsible for completing tasks related to monitoring, testing, reporting, and ensuring quality of the product and processes throughout the facility.

### **Specific Job Duties:**

- Quality Representative for XSENSOR Quality Management System,
- Lead audit programs (internal and external),
- Manage non-conformance processes,
- Perform Incoming Inspection,
- Coordinate and manage change management program,
- Write reports and protocols to ensure continuous compliance with all standards,
- Participate in RCCA to support delivery of product, and
- Perform other duties as assigned.

### **Job Requirements:**

- Degree or Certification in Quality Management, Electrical, Mechanical, or Manufacturing
- 2-5 years experience in a Manufacturing Quality position,
- Ability to read/understand electrical and mechanical drawings,
- Proficient data management, experience in MS365 and on-line data mining is an asset,
- Certifications in Internal Auditor, preferably Lead Auditor,
- Experience with IEC Standards ISO9001, ISO13485 and ISO17025 is an asset,
- Adept at problem solving and strong communication skills with excellent attention to detail,
- Ability to work independently and lead teams, and
- Ability to manage workflow pressures and competing priorities.

**Job Type:** Full Time

**Schedule:** 8 hour shift

**Work Location:** In office only, no remote work.
