Summary: The Warren-Alquist State Energy Resources Conservation and Development Act establishes the State Energy Resources Conservation and Development Commission (Energy Commission) in the Natural Resources Agency. Existing law requires the Energy Commission to undertake a continuing assessment of trends in the consumption of electrical energy and other forms of energy and to analyze the social, economic, and environmental consequences of these trends, and to carry out, or cause to be carried out, under contract or other arrangements, research and development into alternative sources of energy, improvements in energy generation, transmission, and siting, fuel substitution, and other topics related to energy supply, demand, public safety, ecology, and conservation that are of particular statewide importance. This bill would establish, upon appropriation by the Legislature, the Lithium Valley Office of Development in the Energy Commission. The bill would require the office, in consultation with relevant state and local agencies, to coordinate activities related to funding, economic development, construction, manufacturing, technical development, and reclamation of lithium located in the Salton Sea geothermal resource area.

Summary: The California Coastal Act of 1976 establishes the California Coastal Commission and requires the Governor to appoint specified members of the public to the commission. The act requires one of the representatives appointed by the Governor to reside in, and work directly with, communities in the state that are disproportionately burdened by, and vulnerable to, high levels of pollution and issues of environmental justice, including, but not limited to, communities with diverse racial and ethnic populations and communities with low-income populations. This bill would instead require that representative appointed by the Governor to either have the qualification described above or have a professional background in geology, environmental engineering, or carpentry or building and construction trades.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the lead agency to consult with a public agency that is a responsible agency or a trustee agency during the environmental review process. Current law authorizes the Department of Fish and Wildlife to impose and collect filing fees in specified amounts to defray the costs of managing and protecting fish and wildlife trust resources, including, but not limited to, consulting with other public agencies, reviewing environmental documents, recommending mitigation measures, developing monitoring requirements for purposes of CEQA, and other activities protecting those trust resources identified in a review pursuant to CEQA. This bill would require the department to separately track and account for all revenues collected under the above filing fee provision and all costs incurred in its role as a responsible agency or trustee agency under CEQA.

Summary: Current law prohibits a person, a state or local governmental agency, or a public utility from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or depositing or disposing of debris, waste, or other material containing crumbled, flaked, or ground pavement where it may pass into any river, stream, or lake, unless prescribed requirements are met, including written notification to the Department of Fish and Wildlife regarding the activity. Current law prescribes various requirements for lake and streambed alteration agreements. Current law also establishes various exemptions from these provisions, including, until January 1, 2029, the diversion of floodflows for groundwater recharge, as provided. This bill would indefinitely exempt from these provisions the temporary operation of existing infrastructure or temporary pumps being used to divert flood stage flows, as identified by the California Nevada River Forecast Center or the State Water Resources Control Board, or near-flood stage flows, as defined, to groundwater recharge as long as certain conditions are met.

Summary: The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency. The California Constitution includes a public notice and a majority protest procedure in the case of assessments and procedures for submitting property-related fees and charges for approval by property owners subject to the fee or charge or to the electorate residing in the affected area following a public hearing. Current law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements. This bill would prohibit, if a local agency complies with specified procedures, a person or entity from bringing a judicial action or proceeding alleging noncompliance with the constitutional provisions for any new, increased, or extended fee or assessment, as defined, unless that person or entity has timely submitted to the local agency a written objection to that fee or assessment that specifies the grounds for alleging noncompliance, as specified.

Summary: The California Public Records Act requires state and local agencies, as defined, to make their records available for public inspection, unless an exemption from disclosure applies. Current law declares that access to information concerning the conduct of the people's business is a fundamental and necessary right of every person in this state. Current law requires specified state and local bodies to establish written guidelines for accessibility of records. Current law requires the state and local bodies to post a copy of these guidelines in a conspicuous public place at the offices of these bodies, and to make available a copy of the guidelines upon request, free of charge, to any person requesting that body's records. This bill would additionally require an owner, developer, or their agents who receives public funds or the equivalent of public funds from a public agency to perform a public works project, as defined, to be subject to the act in connection with records that it prepares, owns, uses, or retains relating to that public works project. The bill would require the owner, developer, or their agents to establish written guidelines for accessibility of records.

Summary: Current law requires the California Coastal Commission to have the primary responsibility for the implementation of the California Coastal Act of 1976 and designates it as the state coastal zone planning and management agency, as provided. Current law requires anyone wishing to perform or undertake any development in the coastal zone, in addition to obtaining any other permit required by law from any local government or from any state, regional, or local agency, to obtain a coastal development permit from the commission or a local government, as provided. Current law authorizes an appeal to the commission for any action taken by a local government on coastal development permit applications, requires the commission to hear the appeal, and establishes specified appeal procedures, as provided. Current law requires the commission to provide for a de novo public hearing on an application for a coastal development permit and an appeal brought pursuant to the act and requires the commission to give to an affected person written notice containing specified information. This bill would make nonsubstantive changes to the above-described provision involving this notice requirement.

Summary: The California Constitution authorizes governmental entities to take or damage private property for public use only when just compensation, ascertained by a jury unless waived, has first been paid to, or into court for, the owner. The Eminent Domain Law provides the procedure for the exercise of the constitutional power and authorizes the plaintiff to make an application to the court to take possession of property prior to judgment and sets forth the procedures the plaintiff must follow. Current law also provides the procedures to oppose an application to take possession of a property prior to judgment as well the standards used to grant or deny such an application. The bill would make a technical, nonsubstantive change to the provisions governing applications to take possession of a property prior to judgment.

Summary: Existing law, the Keene-Nejedly California Wetlands Preservation Act, requires the Natural Resources Agency to prepare a plan for the acquisition, protection, preservation, restoration, and enhancement of wetlands, including funding requirements and the priority status of specific proposed wetlands projects. By Executive Order No. W-59-93, former Governor Pete Wilson declared it to be the policy of the state that its Comprehensive Wetlands Policy rests on three primary objectives, including the objective of ensuring no overall net loss and long-term net gain in the quantity, quality, and permanence of wetlands acreage and values, as provided. This bill would declare that it is the policy of

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA establishes certain processes, such as the preparation of a master EIR or a focused EIR, to streamline the environmental review of projects. CEQA states the intentions of the Legislature in enacting those streamlined environmental review processes. This bill would make nonsubstantive changes to those statements of intent.

Summary: Current law requires the Department of Water Resources to update every 5 years the plan for the orderly and coordinated control, protection, conservation, development, and use of the water resources of the state, which is known as "The California Water Plan." Current law requires the department to include a discussion of various strategies in the plan update, including, but not limited to, strategies relating to the development of new water storage facilities, water conservation, water recycling, desalination, conjunctive use, water transfers, and alternative pricing policies that may be pursued in order to meet the future needs of the state. Current law requires the department to establish an advisory committee to assist the department in updating the plan. This bill would revise and recast certain provisions regarding The California Water Plan to, among other things, require the department to instead establish a stakeholder advisory committee and to expand the membership of the committee to include tribes, labor, and environmental justice interests. The bill would require the department to coordinate with the California Water Commission, the State Water Resources Control Board, other state and federal agencies as appropriate, and the stakeholder advisory committee to develop a comprehensive plan for addressing the state's water needs and meeting specified long-term water supply targets established by the bill for purposes of The California Water Plan. Summary: Current law requires the Department of Food and Agriculture to promote and protect the agricultural industry of the state. Current law requires the department to enhance, protect, and perpetuate the ability of the private sector to produce food and fiber in a way that benefits the general welfare and economy of the state. This bill would prohibit a hedge fund from purchasing, acquiring, leasing, or holding a controlling interest, as defined, in agricultural land within the State of California. The bill would define a "hedge fund," for these purposes, to mean a privately offered investment vehicle, foreign or domestic, that pools the contributions of private investors in order to invest in a variety of asset classes, such as securities, futures contracts, options, bonds, currencies, real estate, agricultural land, water, energy, and other resources or commodities. This bill would exempt from this prohibition any agricultural land held by a hedge fund before the bill's effective date. The bill would make land transferred in violation of these provisions subject to divestiture, as specified.

Summary: The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties relating to the regulation of drinking water to protect public health. Current law establishes the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Current law requires the state board to annually adopt a fund expenditure plan, as provided, and requires expenditures from the fund to be consistent with the fund expenditure plan. Current law requires the state board to base the fund expenditure plan on data and analysis drawn from a specified drinking water needs assessment. This bill would require the state board to develop a needs analysis of the state's public water systems on or before May 1, 2025, and on or before May 1 of each year thereafter.

Summary: Current law requires that, except as specified, not less than the general prevailing rate of per diem wages, determined by the Director of Industrial Relations, be paid to workers employed on public works projects. Current law defines the term "public works" for purposes of requirements regarding the payment of prevailing wages to include construction, alteration, demolition, installation, or repair work done under contract and paid for using public funds, except as specified. This bill would state the intent of the Legislature to enact subsequent legislation related to the use of for-profit labor compliance entities for the monitoring and enforcement of prevailing wage laws on public works projects.

Summary: Current law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, to conduct necessary studies and investigations, and recommend for adoption by the board appropriate variances for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. Current law requires the department, in recommending variances, to also recommend a threshold of significance for each recommended variance. Current law requires an urban retail water supplier to request and receive approval by the board for inclusion of a variance in calculating their water use objective. Current law requires the board to post specified information on its internet website relating to variances, including a list of all urban retail water suppliers with approved variances. This bill would require the board to adopt variances recommended by the department for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. The bill would provide that variances adopted by the board shall not be subject to a threshold of significance. The bill would require an urban retail water supplier to self-certify the amount of water included in its urban water use objective that is attributable to a variance. The bill would require the board to randomly audit a select number of variances each year to ensure the self-certifications are based on variances adopted by the board.
