

Substance Abuse Treatment Plan

Patient’s Name:

Date of birth:

Age:

Phase	Component	Plan	Duration
1. Assessment	Initial Evaluation <i>(Conduct a comprehensive assessment of the individual's substance use, mental health, and social history to identify specific needs and appropriate interventions.)</i>		
	Medical Evaluation <i>(A medical professional evaluates the individual to determine the need for detoxification or medication-assisted treatment.)</i>		
2. Detoxification	Medically Supervised Detox <i>(If necessary, provide a medically supervised detoxification process to help the individual safely withdraw from the substance and manage withdrawal symptoms.)</i>		
3. Therapy & Counseling	Individual Therapy <i>(Engage in regular individual therapy sessions with a qualified therapist to develop coping skills, identify triggers, and address underlying emotional issues.)</i>		
	Group Therapy <i>(Participate in group therapy sessions to share experiences, learn from others, and receive recovery support.)</i>		

	Family Therapy <i>(Include family members in therapy sessions to address relationship dynamics and enhance support systems.)</i>		
4. Medication-Assisted Treatment	MAT Consultation <i>(Consult a medical professional to determine if medication-assisted treatment is appropriate and identify suitable medications.)</i>		
	Medication Management <i>(Regularly monitor and adjust medications to manage withdrawal symptoms, reduce cravings, or address co-occurring mental health disorders.)</i>		
5. Behavioral Therapies	CBT/DBT/MI <i>(Use evidence-based behavioral therapies such as cognitive-behavioral, dialectical behavior, or motivational interviewing.)</i>		
6. Support Groups	12-Step or Other Support Groups <i>(Attend regular meetings of 12-step programs (e.g., AA or NA) or other support groups for ongoing peer support and encouragement.)</i>		
7. Aftercare & Relapse Prevention	Ongoing Counseling <i>(Continue individual or group therapy sessions to maintain recovery skills and address emerging challenges.)</i>		
	Support Group Participation <i>(Maintain regular attendance at support group meetings for ongoing peer support and encouragement.)</i>		

	Healthy Lifestyle Development <i>(Develop and maintain a healthy lifestyle, including regular exercise, proper nutrition, and stress management techniques.)</i>		
8. Co-occurring Disorder Treatment	Mental Health Treatment <i>(Receive appropriate treatment for co-occurring mental health disorders like depression, anxiety, or trauma-related disorders.)</i>
