Your Company's Knowledge Captured .

From the experienced workers to the new trainees with AI

1 Available: One-Take Manuals

Experts wear a **50g camera cap**.
AI auto-generates video instructions in 200 languages.
Employees use these in training and on the shopfloor and finds them via QR code or URL in your systems in less than 10s.

2 Available: AI Video Analysis

Your **video database** in Manual.to can be analysed with our AI models for Instant SMED, RCA, ...
Increase the speed and impact from your engineering teams.

3 Research Preview: Process Confirmation

Process confirmation allows your teams on the shopfloor to check their work while doing critical tasks.
The AI compares the execution to the standard and shares the gaps with the operator.
