

AI Powered Industrial Automation

About Haber

//

**From data to action in
an instant: Empowering
swift, smart decisions**

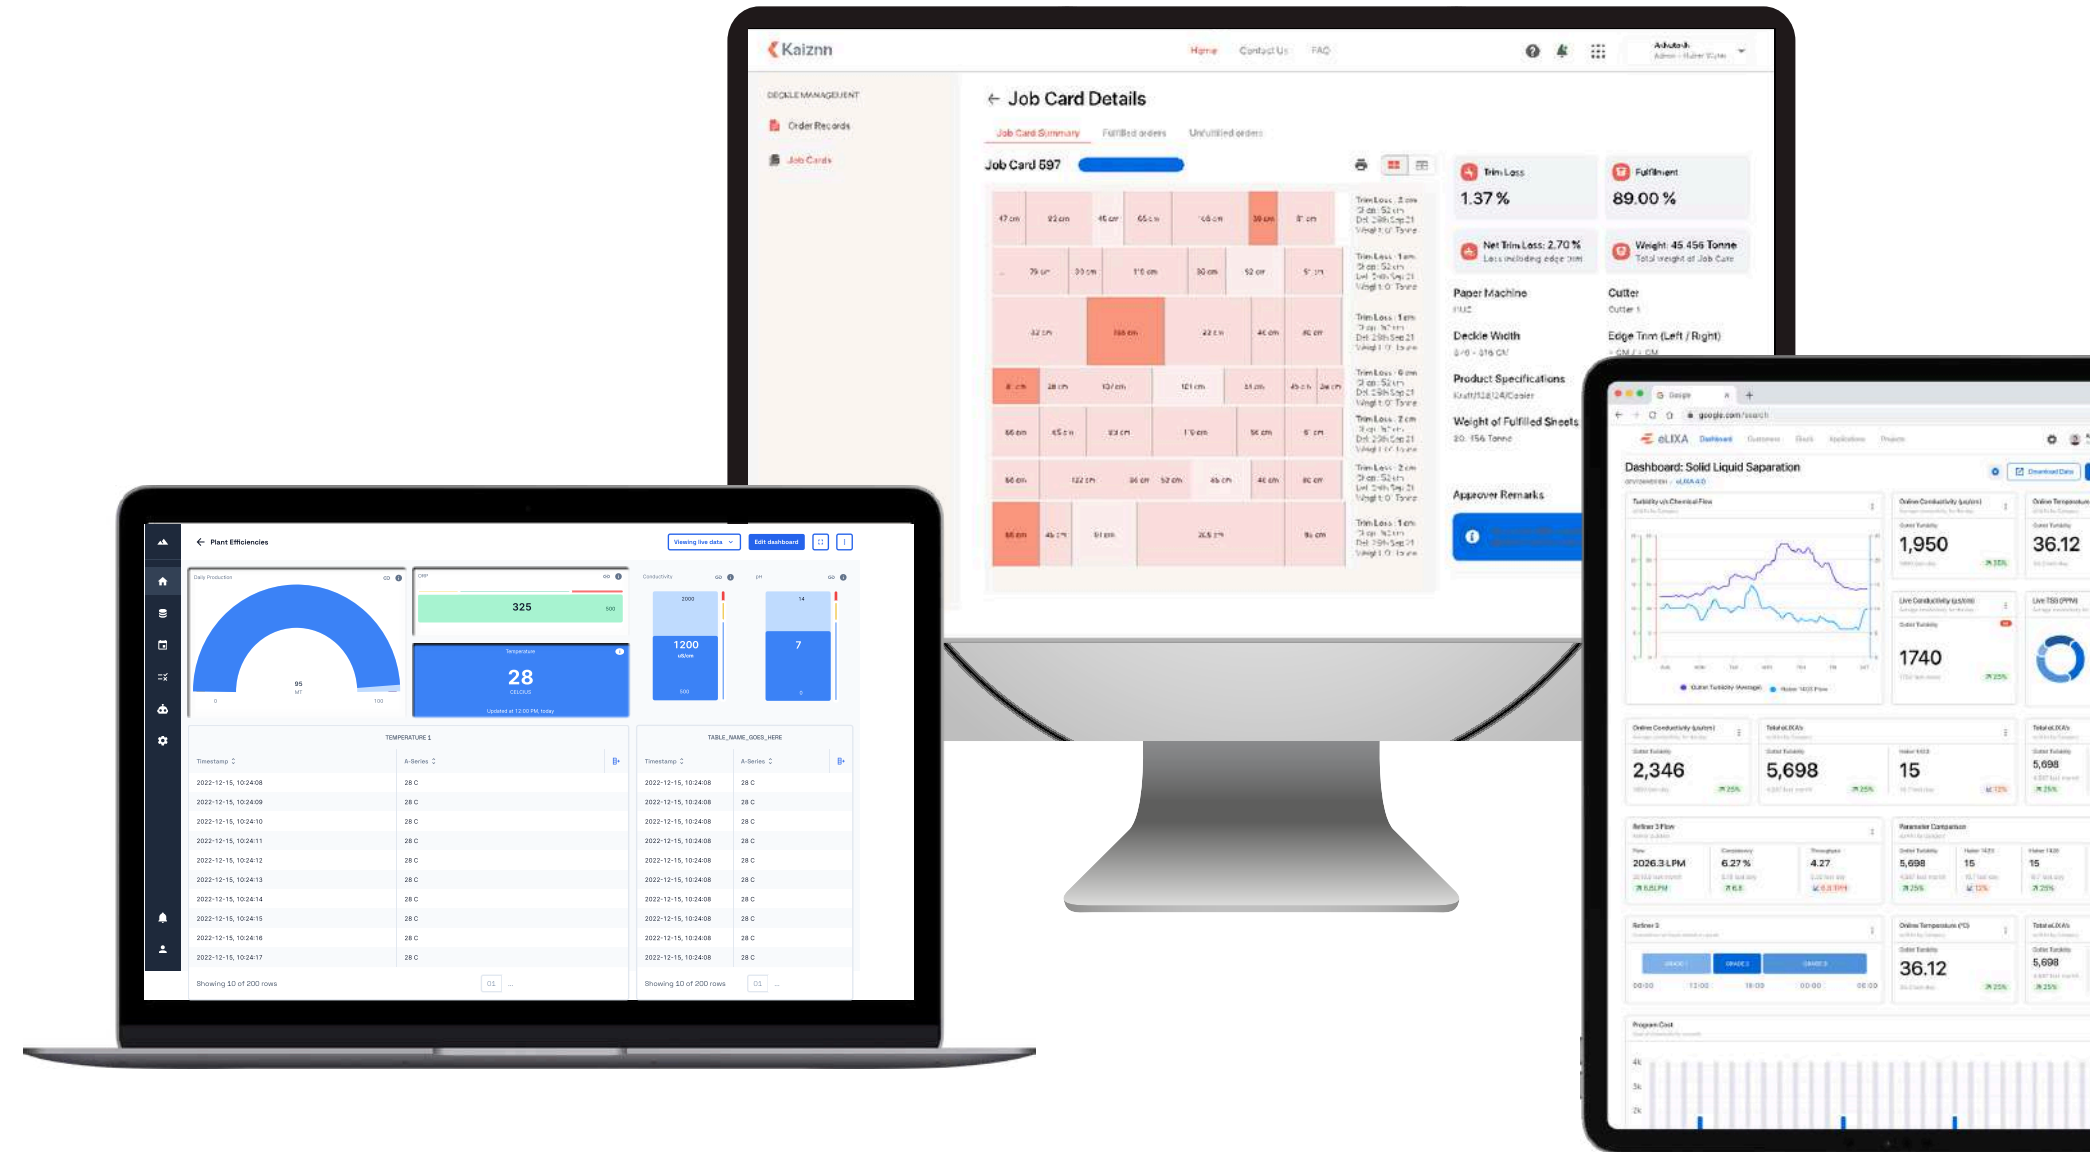

We handle the nitty-gritty, allowing
you to focus on insights and make
decisions. effortlessly.

CONFIDENTIAL

AI Powered Industrial Automation

Seamlessly integrate and leverage data from any platform and boost decision-making efficiency and performance

Streamlined Production Planning, Order Management, Stock Control, and Trim Optimization for Efficiency

Real-Time Monitoring and predictive insights for automated intervention, ensuring optimal operations!

CONFIDENTIAL

eLIXA®

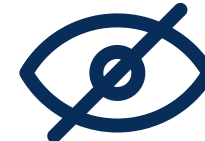

Mt. Fuji

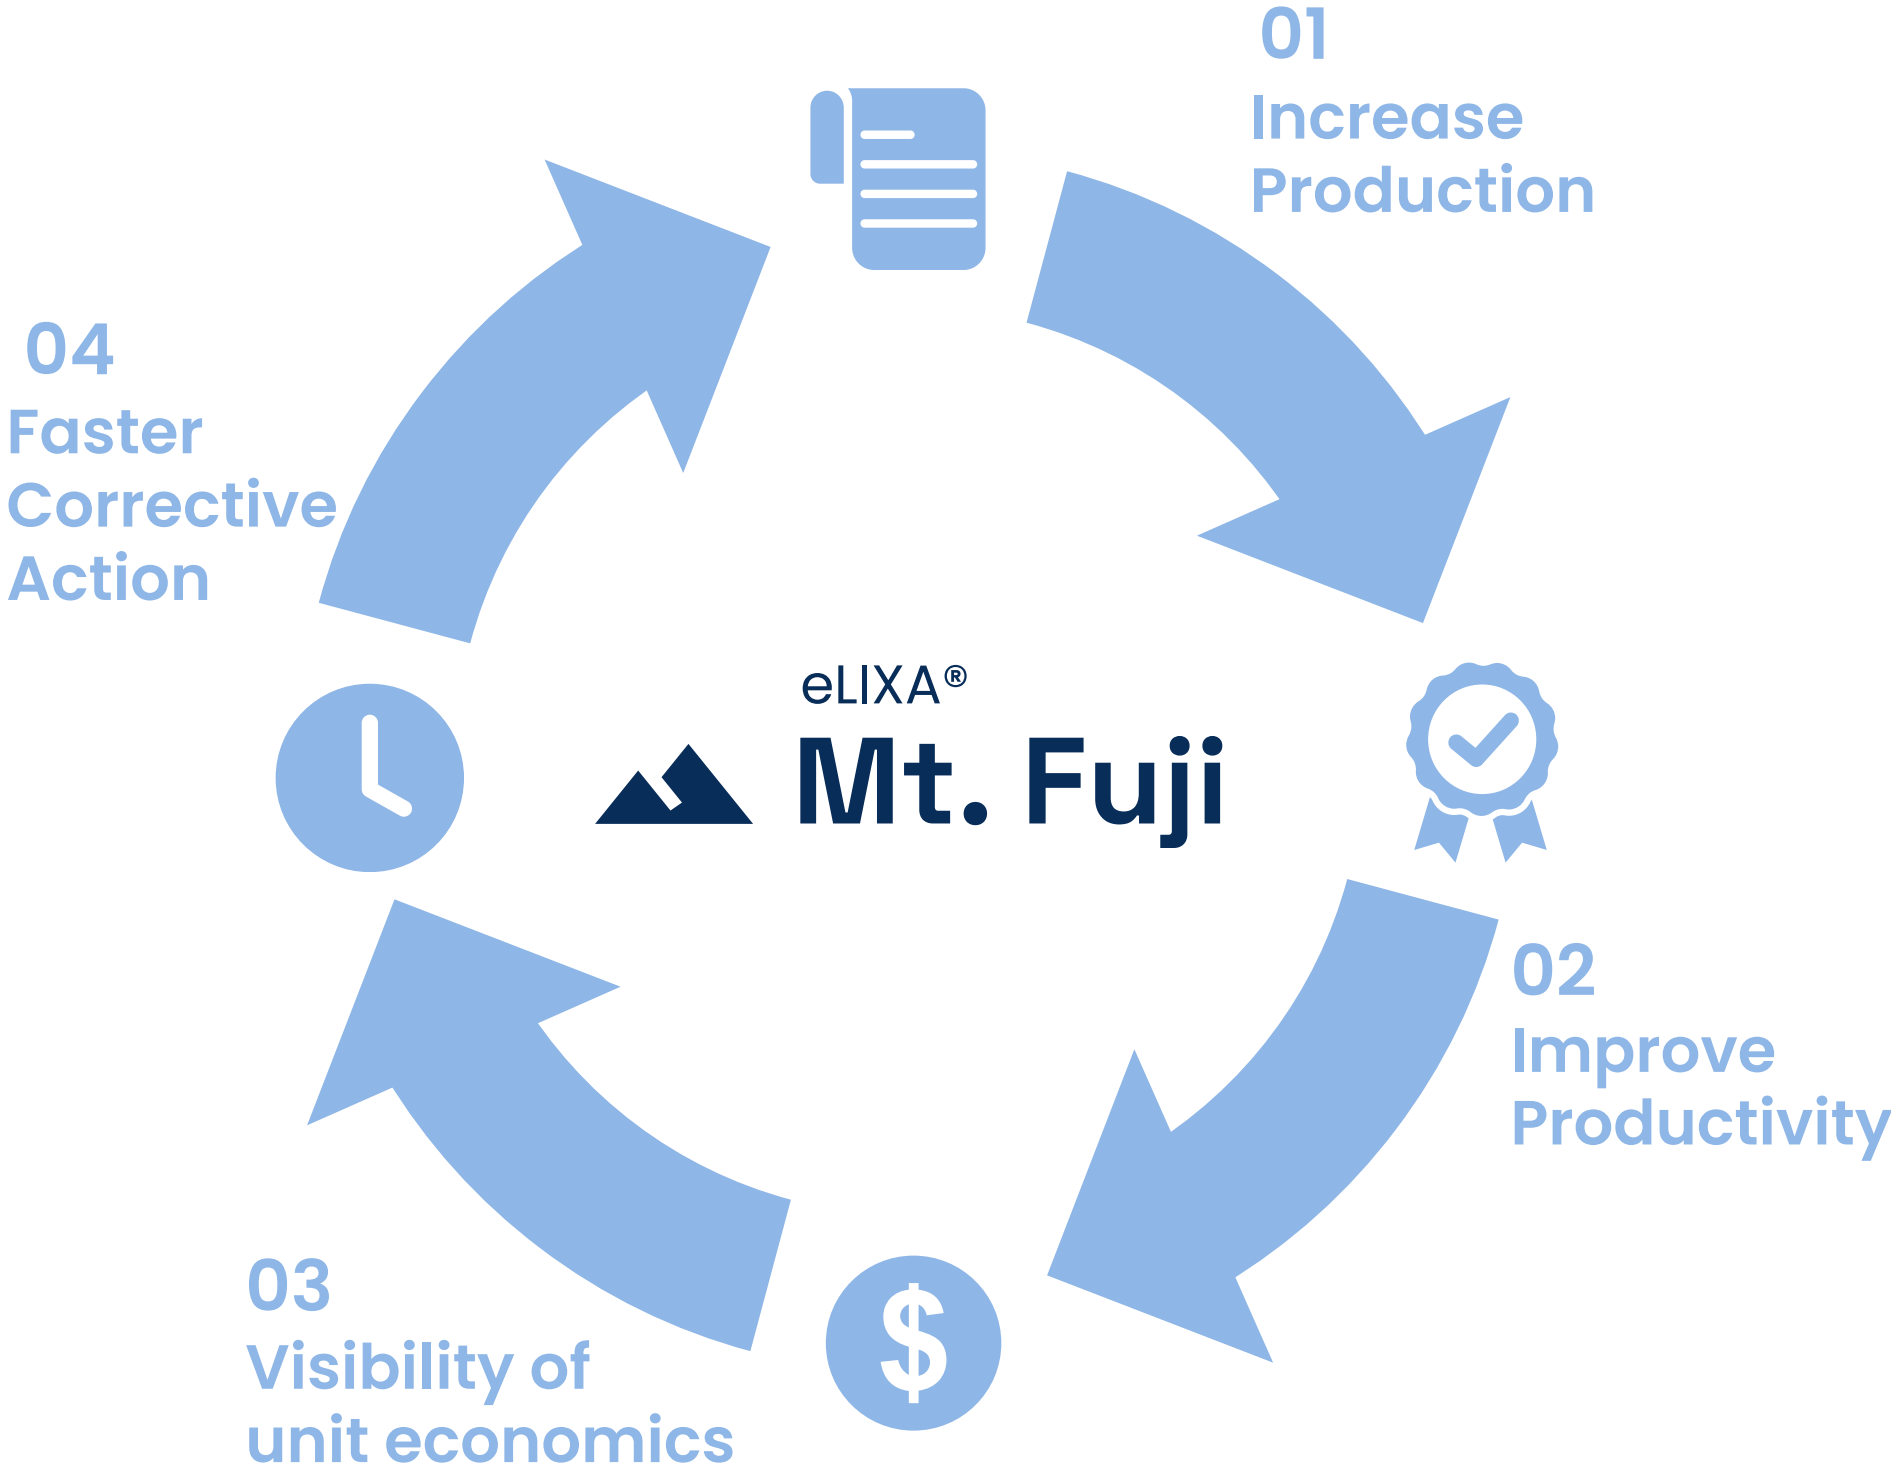

Process and Production Intelligence
for Pulp and Paper Industry

Transforming Unstructured Data to Actionable Intelligence

No Mt.Fuji : No Easy Insights

-  Fragmented Data
-  Cumbersome Analysis
-  Lack of Visibility

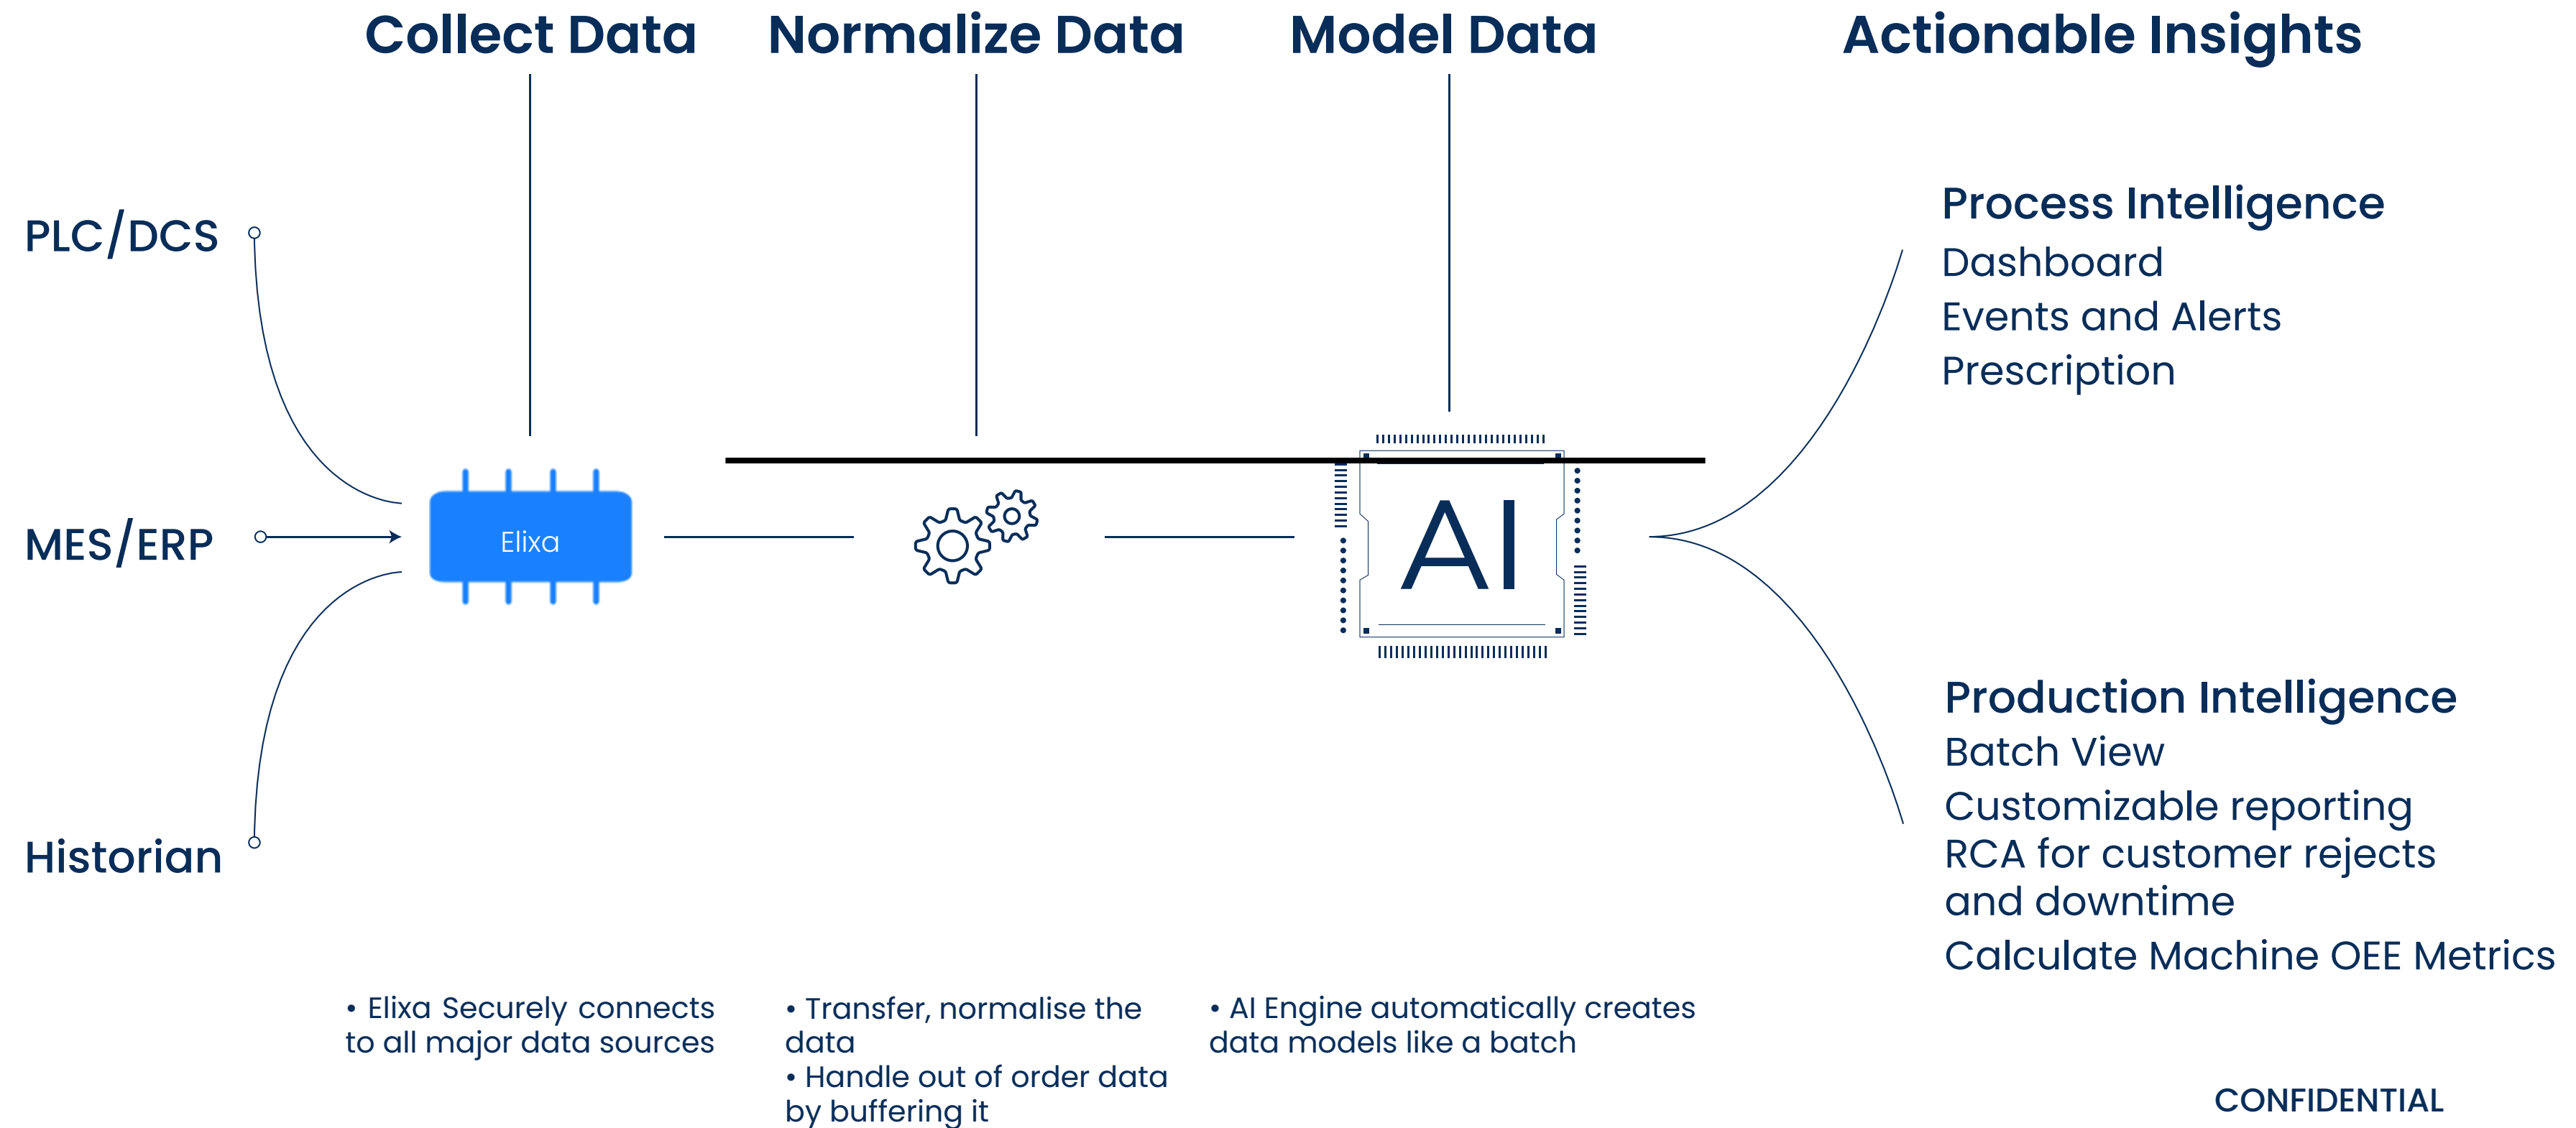

-  Effective Root Cause Analysis
-  Convergence of IT-OT Data
-  Prescriptive Warnings

Mt. Fuji Features

CONFIDENTIAL

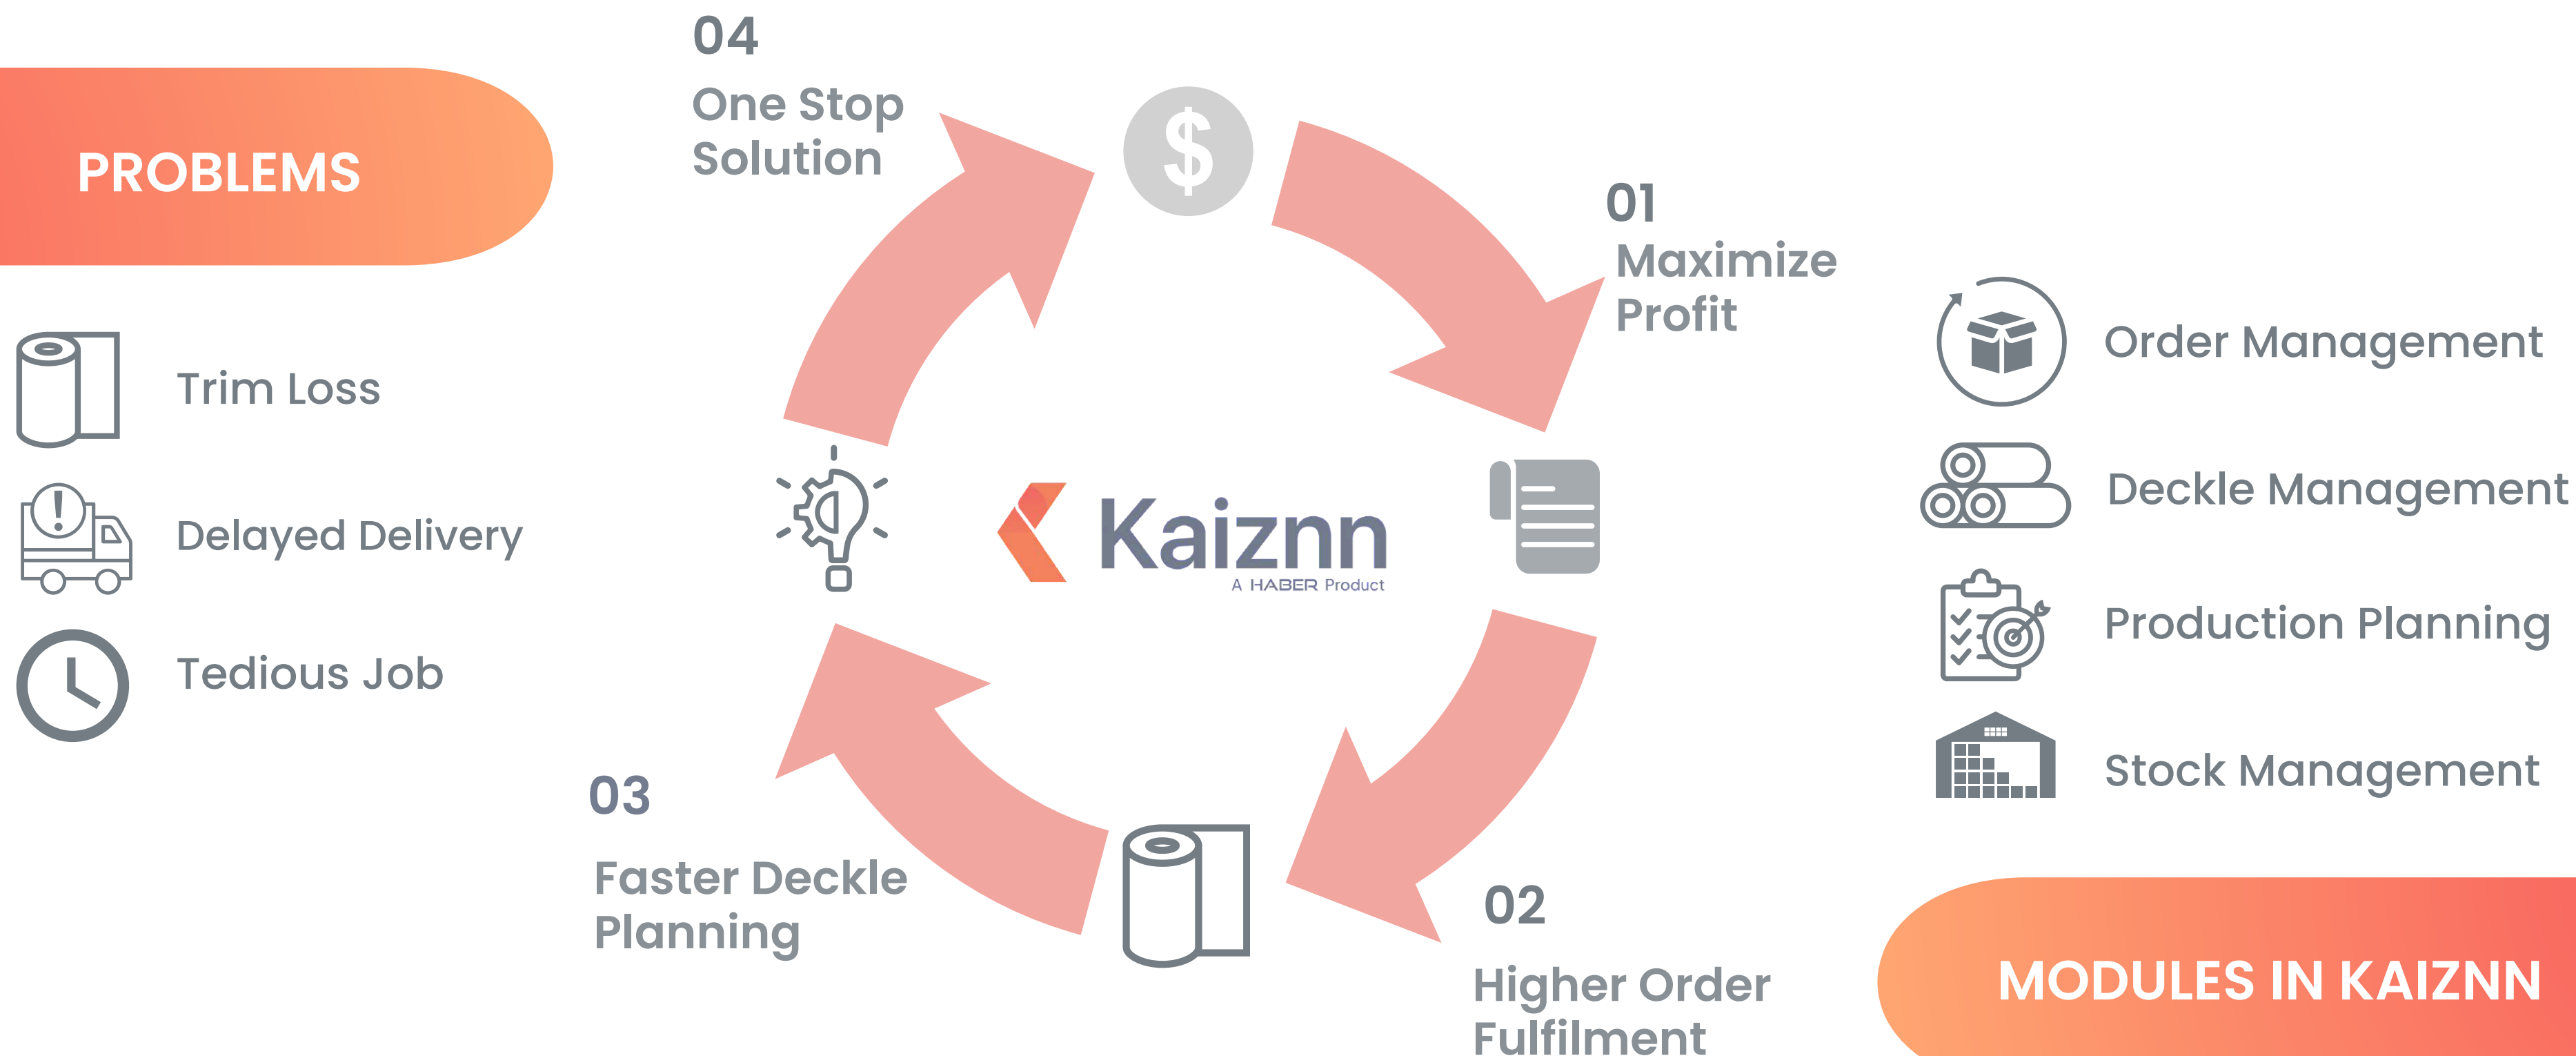

How it works?

Experience the first-of-its-kind Trim and
fulfilment optimization System.

Intelligent Integrated Deckle Management to Optimize Cost

Leveraging real-time monitoring and AI-powered
analysis to optimise production

Disrupting Chemical Dosing Using Real-Time AI

SOLUTIONS

Increased Production
from continuous uptime

Eliminate Rejects
with consistent quality

Lower Costs
from energy savings,
additives

CONFIDENTIAL

Present Across the Plant

PULP MILL

Cooking Process Optimization
Washing Process optimization
Pulp Brightness Optimization

CHEMICAL RECOVERY & UTILITIES

MEE Operations optimization
Recausticizing process optimization
Lime Kiln process optimization
Boiler operations optimization

WATER & WASTEWATER MANAGEMENT

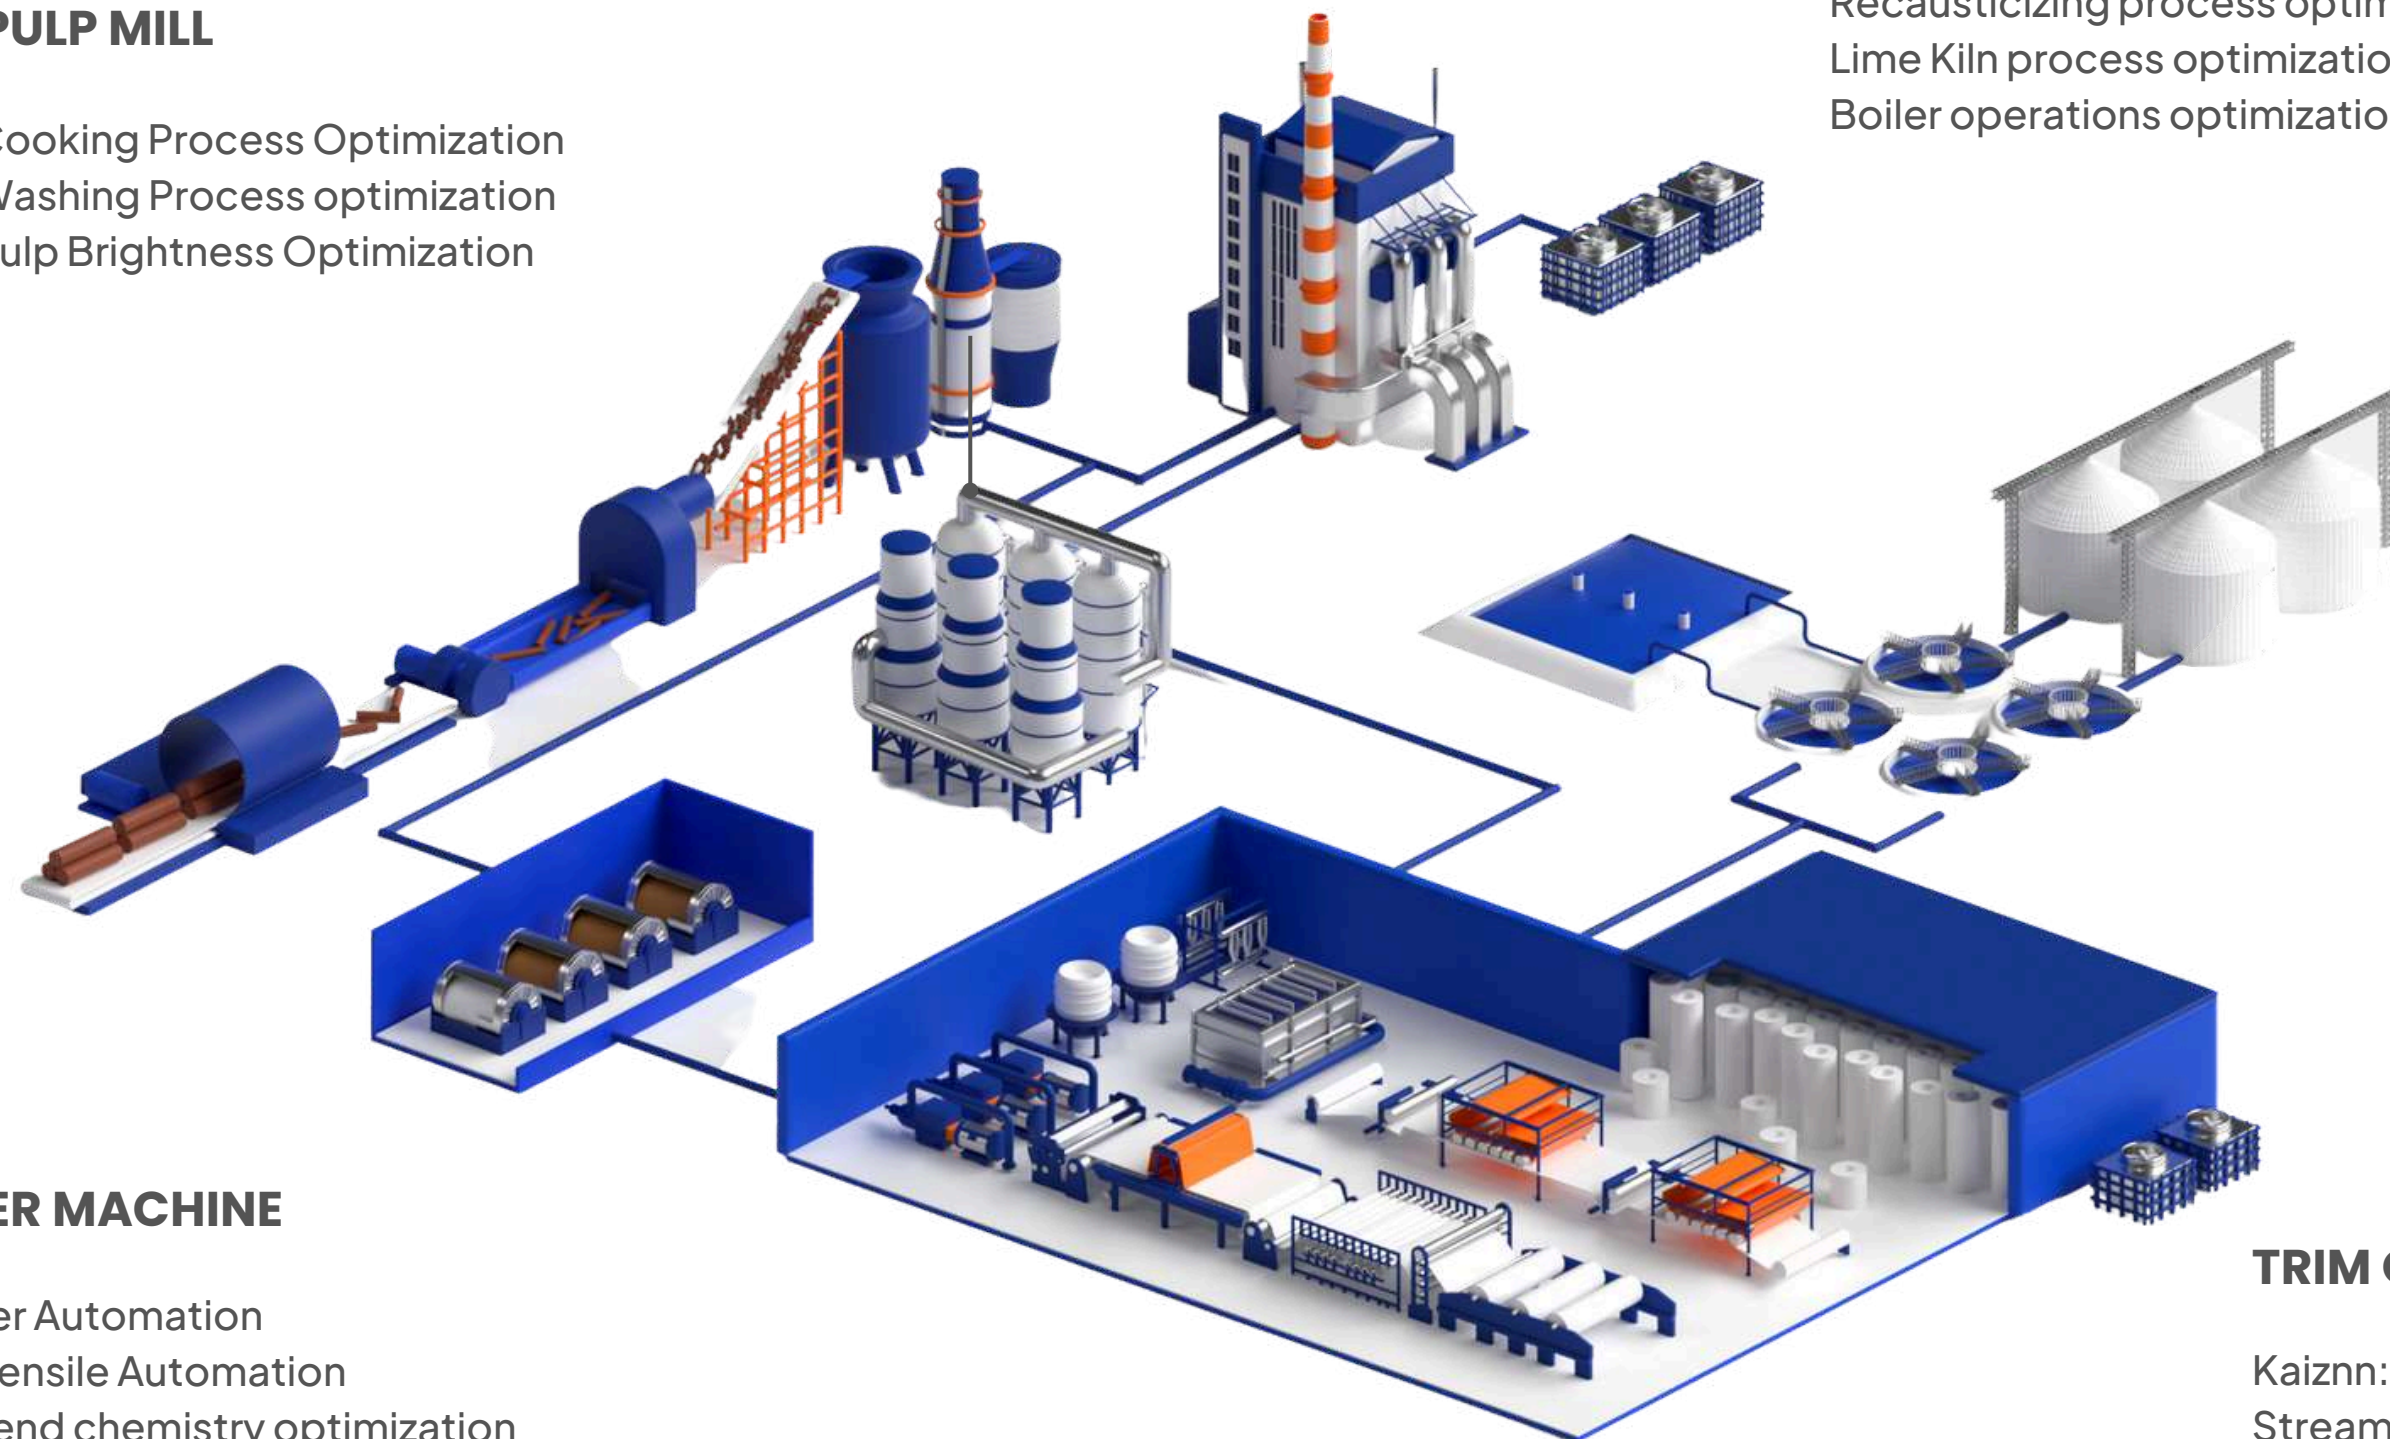

Water treatment optimization
WWTP Operations Optimization
Cooling Water/ Boiler Water/
Membrane Treatment optimization

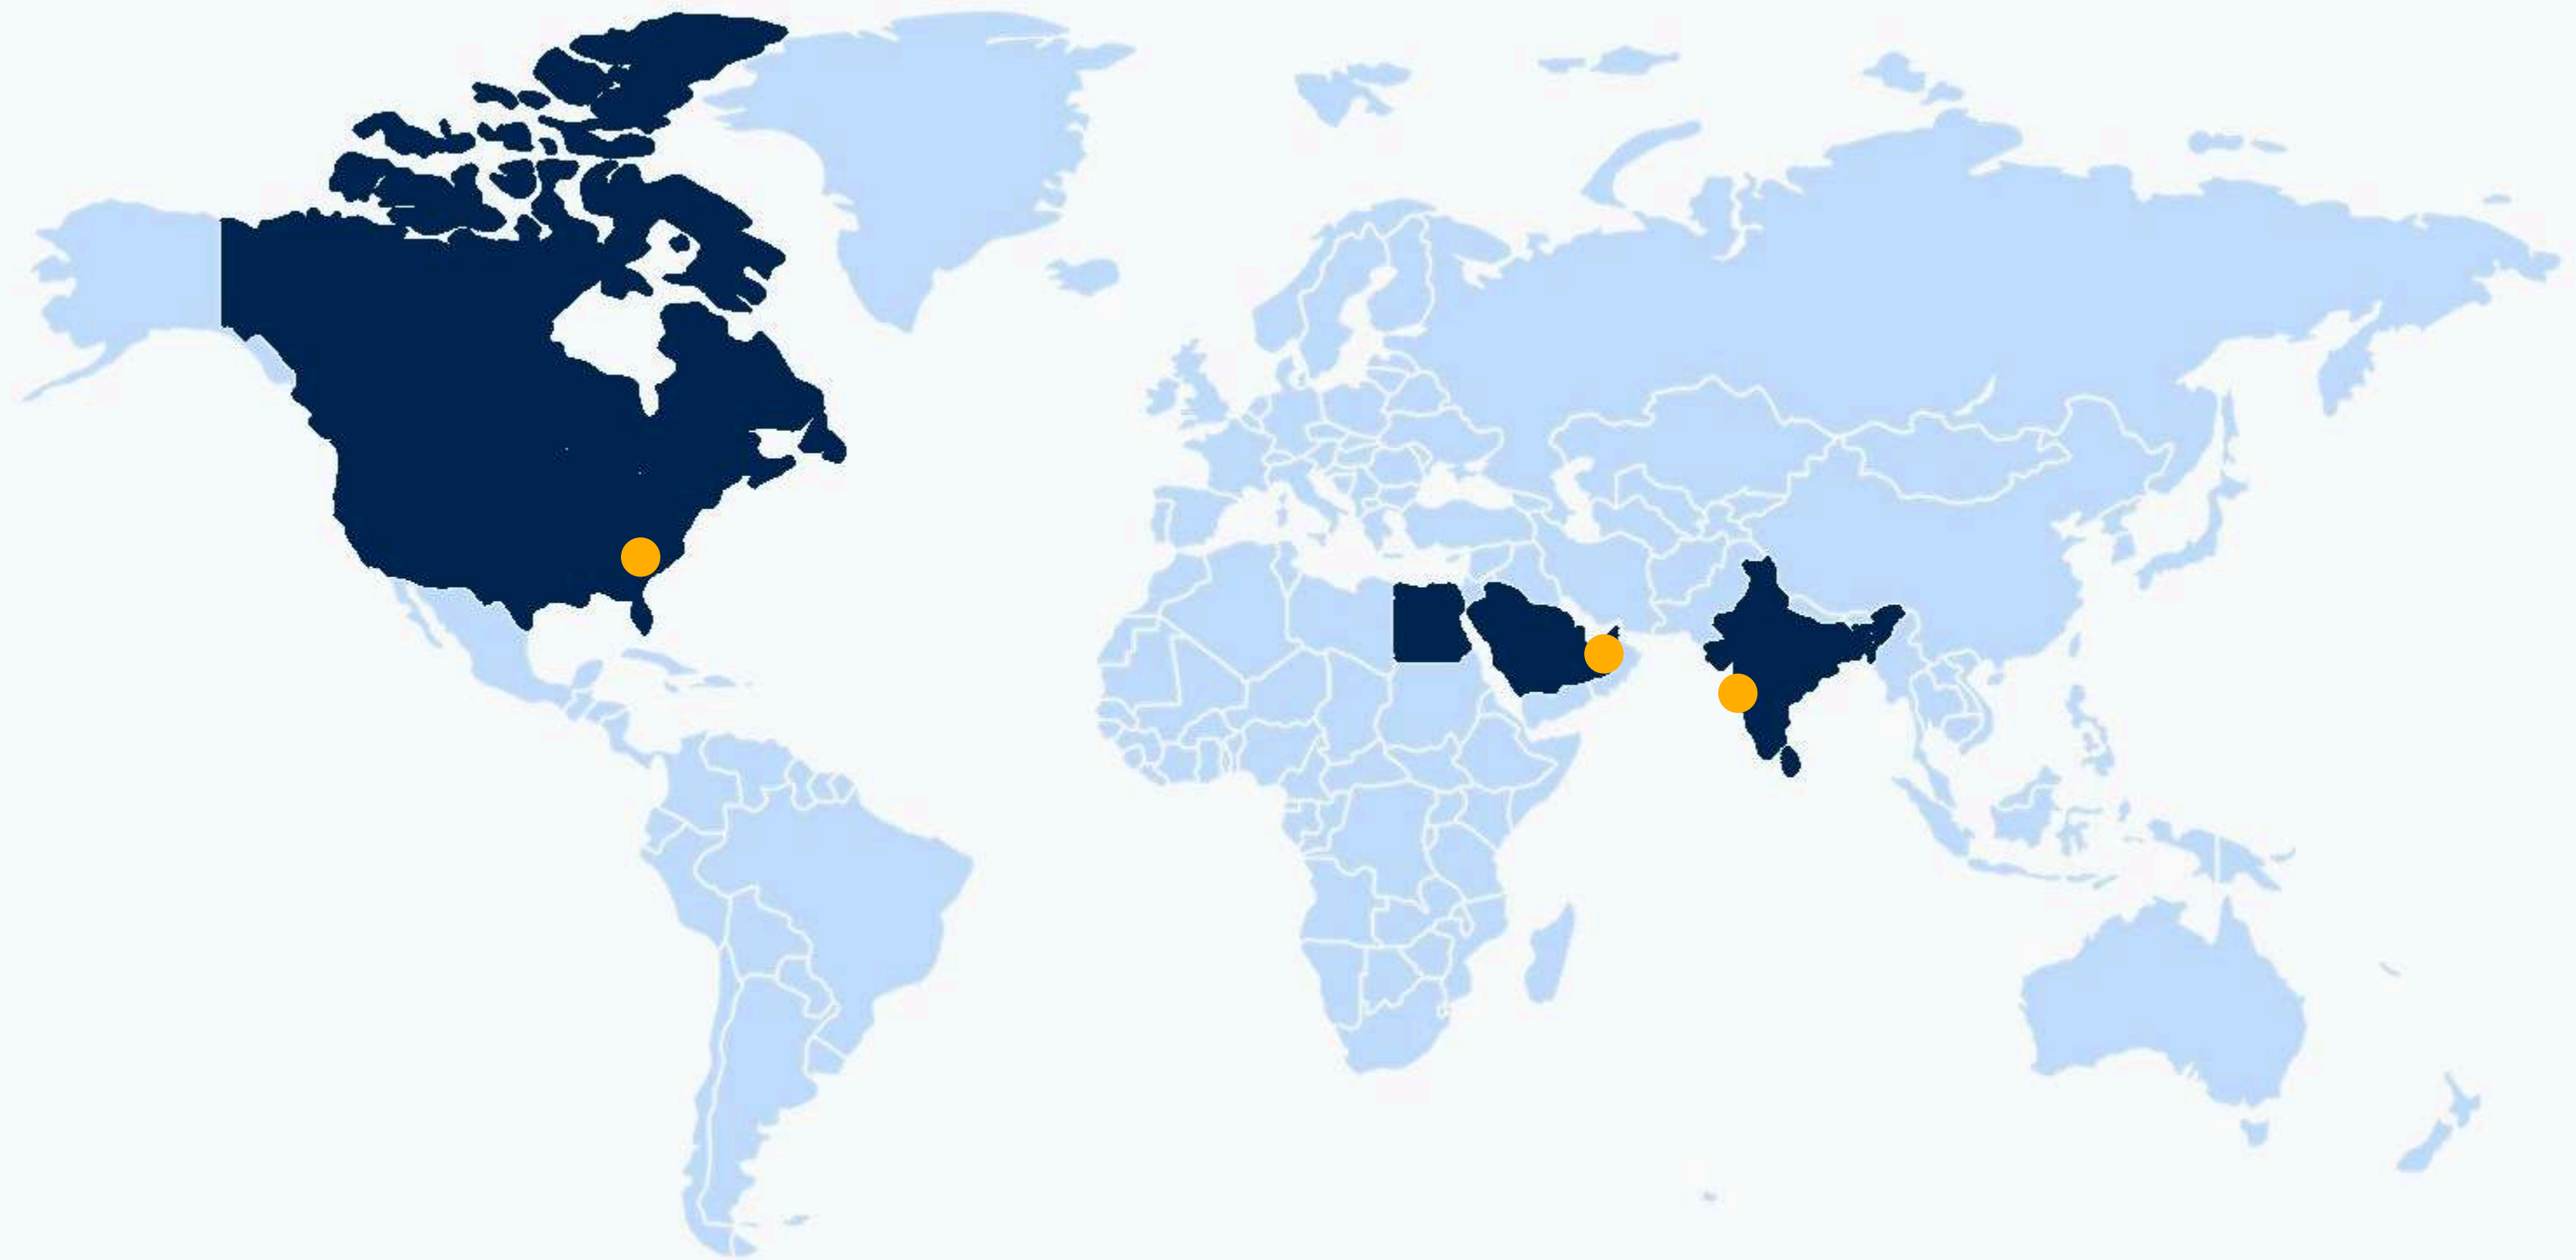

PAPER MACHINE

Refiner Automation
Wet Tensile Automation
Wet-end chemistry optimization

TRIM OPTIMISER

Kaiznn: Integrated Trim Optimization for
Streamlined Production and Order Management.
