LATEX AGGLUTINATION, ELISA ASSAYS AND CONTROL SETS

Rapid • Simple • Convenient • Reliable • Cost Effective

Your Trusted Diagnostic and Blood Bank Assay Manufacturer

ASI RPR Card Test for Syphilis (Nontreponemal)

- A CDC recommended primary screening test
- Simple and economical to use
- Easy to interpret
- All testing materials provided
- Available with or without controls
- Three levels of liquid controls included
- Color-coded dropper vials
- Coated, warp resistant test cards
- Screw cap vials—no glass ampules
- Up to 24 month shelf life*
- Proven results on CAP, AAB, and API Surveys
- 10, 15 and 30 well test cards available

KIT SIZES: 25 #900025, 100 #900100, 500 #900500, 5,000 #9005000-30 with controls, 5,000 #987530 without controls, 10,000 #90010000-30 with controls, 10,000 #987X30 without controls FREE evaluation kit available

ASI VDRL Syphilis Antigen Test (Nontreponemal)

- Suitable for testing cerebral spinal fluid (CSF) specimens
- Meets CDC primary algorithm recommendation
- Easy to interpret
- Simple and economical to use
- Screw cap vials—no glass ampules
- Room temperature storage
- Up to 60 month shelf life*
- Results on CAP, AAB and API surveys

KIT SIZES: #950010

Synthetic VDRL Syphilis Antigen Test (Nontreponemal)

- Suitable for testing cerebral spinal fluid (CSF) specimens
- Meets CDC primary algorithm recommendation
- Easy to interpret
- Substantially equivalent to traditional VDRL
- Simple and economical to use
- Screw cap vials—no glass ampules
- Room temperature storage
- Up to 60 month shelf life*

KIT SIZES: #950010syn

ASI TPHA (Treponemal Export Only)

- Simple and economical to use
- Easy to interpret
- Liquid test cells (No reconstitution, 100 tests per vial)
- 2 levels of controls (Reactive and nonreactive)
- No reconstitution
- Up to 18 month shelf life*
- Sample may be stored at 2-8° C
- Serum or EDTA samples may be used

KIT SIZES: 200 Tests #980200E

ASI Color Mono II Test

- Easy to read results in 2 minutes
- Color enhanced agglutination test
- Qualitative and semiquantitative procedures
- All testing materials provided
- Used with serum or plasma
- Color-coded reactive and nonreactive controls
- Dropper tip vials included in the kit.
- Storage requirement: 2-8°C
- Up to 24 months shelf life

KIT SIZES: 25 #450025, 50 #450050, 100 #450100, 1000 #4501000 FREE evaluation kit available

* From date of manufacture

ASI Rubella Test

- Excellent reproducibility and accuracy
- Results in 8 minutes
- Qualitative and semiquantitative results
- Simple and economical to use
- White latex agglutination test
- Easy to interpret
- All materials provided
- Three levels of liquid controls included
- For the diagnosis of recent or active infection
- For the determination of immune status
- Correlation with gold standard - Hemagglutination Inhibition Test (HAI)
- Up to 18 months shelf life*

KIT SIZES: 30 #60030, 100 #600100, 500 #600500 FREE evaluation kit available

ASI Color Staph

- 10 to 30 -Second slide test
- Detects Methicillin Resistant S. aureus (MRSA)
- Liquid controls included
- Easy to interpret
- Up to 24 month shelf life*

KIT SIZES: 50 #285-050, 150 #285-150, 300 #285-300 FREE evaluation kit available

ASI Staphslide Latex Test (Clumping Factor and Protein A)

- 45-Second slide test
- Detects Methicillin Resistant S. aureus (MRSA)
- Liquid controls included
- 100% correlation with tube coagulase test
- Simple and economical to use
- All testing materials provided
- Two levels of liquid controls included
- For use on pure culture samples
- Up to 24 month shelf life*
- Easy to interpret

KIT SIZES: 25 #280-2-25C, 50 #280-2-50C, 150 #280-2C FREE evaluation kit available

ASI Sickle Cell Test

- Accurate, easy and economical
- Detects both homozygous (S/S) and heterozygous (A/S) -sickle cell
- Contains urea reagent for test confirmation
- Turbidity line test based upon modified Nalbandian procedure
- Room temperature storage
- Easy to interpret
- Up to 24 month shelf life*

KIT SIZES: 25 #200025, 100 #200100 FREE evaluation kit available

ASI RF Direct Slide Test

- 2 Minute slide test
- Standardized to WHO reference
- No initial dilution required
- 2 Liquid controls included
- Proven by CAP, AAB, and API surveys Simple and economical to use
- Easy to interpret
- All testing materials provided
- Up to 24 month shelf life*

KIT SIZES: 25 #700025DC, 100 #700100DC, 1000 #7001000DC FREE evaluation kit available

* From date of manufacture

ASI CRP Slide Test

- 2 Minute slide test
- No initial dilution required
- 2 Liquid controls included
- Proven by AAB, CAP and API surveys
- Simple and economical to use
- Easy to interpret
- All testing materials provided
- Up to 24 month shelf life*

KIT SIZES: 25 #500025, 50 #500050, 100 #500100, 1000 #5001000 FREE evaluation kit available

ASI ASO Slide Test

- 2 Minute slide test
- 2 Liquid controls included
- Longest shelf life - up to 24 month
- Proven by AAB, CAP, and API surveys

KIT SIZES: 25 #300025, 50 #300050, 100 #300100, 1000 #3001000, FREE evaluation kit available

ASI SLE Slide Test (Anti-DNP)

- Proven reliability
- Accurate screening test for SLE
- 1 Minute test
- 2 Liquid controls included
- Simple and economical to use
- Easy to interpret
- All testing materials provided
- Up to 24 month shelf life*

KIT SIZES: 25 #350025, 50 #350050, 100 #350100, 1000 #3501000 FREE evaluation kit available

SeraQuest™ EIA TEST KITS

- **Rubella IgG/IgM** - 96 test kit #800096AG IgG, 96 test kit #800096AM IgM
- **CMV IgG/IgM** - 96 test kit #820096AG IgG, 96 test kit #820096AM IgM
- **VZV IgG** - 96 test kit #840096AG
- **EB-VCA IgG/IgM** - 96 test kit #880096AG IgG, 96 test kit #880096AM IgM
- **EB-NA IgG** - 96 test kit #870096AG
- **Toloplasma IgG/IgM** - 96 test kit #810096AG IgG, 96 test kit #810096AM IgM
- **Measles IgG** - 96 test kit #850096AG IgG
- **Mumps IgG/IgM** - 96 test kit #860096AG IgG, 96 test kit #860096AM IgM
- **HSV IgG** - 96 test kit #830096AG
- **HSV Type 1 IgG** - 96 test kit #831096AG
- **HSV Type 2 IgG** - 96 test kit #832096AG
- **EB-EAD IgG** - 96 test kit #881096AG
- **Syphilis IgG** - 96 test kit #890096AG
