

The 2-in-1 Solution for Maximizing Lot Efficiency and F&I Revenue

1 FOR YOU

Free Lot Management System

Monitor real-time vehicle location on your lot using our web and mobile apps.

- Operations - Enhance efficiency from arrival to showroom, eliminate disconnects between departments.
- Sales - Speed up the sales process by equipping sales people with our intuitive mobile tools/apps for quick guidance to customers' desired vehicle.
- Inventory - Reconcile and resolve discrepancies and know where all vehicles are located across lots and locations. Search, filter and locate any cars.
- Integrations - Optional integration with your Dealer Management Systems (DMS) and flooring software is available to provide all data on a single screen.
- Customer Satisfaction - Improve CSI and social media reviews by getting customers what they want, faster.
- F&I Income Reinsurance - Opportunity to provide warranty coverage in F&I and reinsure the warranty.

Multiple business models available, including ZERO upfront cost!

2 FOR YOUR CLIENTS

Vehicle theft recovery system

Unlock additional revenue during F&I by upselling end-customers on our stolen vehicle recovery service.

- **Theft recovery** - Customers can use the mobile app to provide a simple link for law enforcement to find their stolen vehicle.
- **Vehicle location** - Your customers can monitor vehicle location on the mobile app to locate their vehicle for any reason they wish, and be alerted if it moves.
- **Other benefits** - Customers enjoy guaranteed privacy, possible insurance discounts, and up to \$ 10, 000 in monetary benefits if the vehicle is not recovered.
