

**LAS VEGAS VALLEY NPDES STORMWATER DISCHARGE PERMIT
STORMWATER QUALITY MANAGEMENT COMMITTEE (SQMC)**

**Tuesday February 10, 2026
11:00 A.M.**

Meeting Minutes

Date: Tuesday, February 10, 2026
 Time: 11:00 A.M.
 Location: Video Conference Call-MS Teams
 Attendees:

Stormwater Quality Management Committee Permittee Representatives					
Andrew Trelease, CCRFCD	X	Joey Paskey, CLV	X	Mike Hudgeons, CNLV	X
Lance Olson, COH	X	Denis Cederburg, CC	X		
Permittee Staff Members					
John Tennert, CCRFCD		Sherri McMahon, CLV		Joseph Leedy, CC	
John Solvie, CC		Chelsie Kekaula Duke, COH		Christene Klimek, COH	
Dean Mosher, CC		Lester Aquino, COH		Daylin Sigler, CC	
Brian Rowley, CCRFCD		Steve Conner, COH		Christina Richter, COH	
Other Attendees (Based on Teams Participants)					
Rob Zinkevich, NDEP		Xiaoping Zhou, SNWA		Todd Tietjen, SNWA	
Kathryn Foxworthy, NDEP		Angela MacKinnon, BC		Alisson Boeing, HDR	
Ellen Yuska, BC		Catherine LaBounty, HDR			

1. Call to Order

The meeting was called to order by Andrew Trelease (CCRFCD). A quorum was present.

2. Comments By the General Public

This is a period devoted to comments by the general public about items on this agenda. If you wish to speak to the Regional Flood Control District Stormwater Quality Management Committee (SQMC) about items within its jurisdiction, but not appearing on this agenda, you must wait until the “Comments By the General Public” period listed at the end of this agenda. Comments will be limited to three minutes.

To hear, observe and participate in the meeting a member of the public shall use the remote technology system by following the MS Teams instructions listed above to present their comments to the SQMC. Clearly state your name and address and spell your last name for

the record. If any member of the SQMC wishes to extend the length of a presentation, this will be done by the Chair.

No comments were received.

3. Action to approve the agenda (*For possible action*)

The proposed agenda was approved.

4. Action to approve the minutes of the November 10, 2025 meeting (For possible action)

The meeting minutes from November 10, 2025 SQMC meeting were approved.

5. Receive an update on the implementation of the new MS4 permit and the draft revised Stormwater Management Plan (for discussion only)

John Tennert (CCRFCD) reported that the Permittees have received formal comments from NDEP on the draft revised Stormwater Management Plan (SWMP) and Stormwater Monitoring Plan, starting the 6-month deadline to submit the revised documents for final approval. CCRFCD held a two-hour meeting with NDEP to review several of the requested changes. The Permittees are currently incorporating those revisions and expect to resubmit the documents in the coming weeks. Once the plans are approved, the process will move forward with opportunities for public engagement, including a required workshop and 30-day public comment period.

6. Action to approve Bylaws for the SQMC (for discussion only)

John Tennert (CCRFCD) presented the draft Bylaws for the Stormwater Quality Management Committee (SQMC). The Membership of the SQMC consists of one representative of each of the five local government or political subdivisions ("Permittee") identified in the Interlocal Agreement. The members shall be Director-level positions of the applicable Departments of Public Works for the Cities and the County, and the General Manager of the District. Each Member shall name at least one alternate to represent their respective SQMC Agency. Alternates are encouraged to be assistant or deputy director level positions or equivalent. The responsibilities of the SQMC are to ensure compliance with the Permit, provide advice on direction and approach to Permit compliance, adopt and maintain a Stormwater Management Plan, Stormwater Monitoring Plan, and Annual Report, maintain the Interlocal Agreement among the Permittees, and review and provide input on consultant and technical support agreements. The SQMC shall hold four regular meetings each year (may be virtual or in-person at District offices)

and comply with Nevada Open meeting law. Bylaws may be amended at any meeting of the SQMC by a majority of the members.

7. **Discuss FY 24/25 quarterly progress reports and take action as deemed appropriate (*For possible action*)**
 - a. Public outreach and education
 - b. Construction inspection program
 - c. Structural and source control measures: inlet cleaning, street sweeping and detention basin cleaning
 - d. Illicit discharge detection and elimination program
 - e. Industrial site inspection program
 - f. New development and significant redevelopment program
 - g. Regional detention basin program
 - h. Annual expenditures for the reporting period, with a breakdown for the major elements of the SWMP, and the budget for the year following each Annual Report

Andrew Trelease (CCRFCD) shared that the Permittees submitted the quarterly reports and are on track to meet the MS4 permit goals.

8. **Discuss monitoring activities and issues and take action as deemed appropriate (*For possible action*)**
 - Dry weather monitoring
 - Wet weather monitoring

For dry weather monitoring, Dr. Xiaoping Zhou (SNWA) reported that all 2025 data is now available, and the first set of results for 2026 was completed in January. These results will be uploaded to the water quality database soon. Dr. Zhou also noted that the new water quality database has been implemented, and the login credentials should remain the same as before.

Angela MacKinnon (Brown and Caldwell) presented the results from the three most recent sampling events conducted at both wet weather sampling sites (The Club at Sunrise and Rainbow Gardens). The presentation included key parameters such as total suspended solids (TSS), orthophosphate, total phosphorus, dissolved copper, lead, zinc, and selenium, with trend data spanning the past six years. The results are consistent with historical medians. In addition, results from the two most recent sampling events, conducted three days apart, were directly compared for TSS, nutrients, dissolved metals, and oil and grease. The findings did not support the “first flush” theory because there was not a significant difference in results between the two sampling events. This outcome may be attributed to the effectiveness of the maintenance and street sweeping actions implemented by the Permittees.

9. **Discuss Nevada Division of Environmental Protection issues and take action as deemed appropriate (For possible action)**

Nothing to report.

10. **Discuss other stakeholder issues and take action as deemed appropriate (For possible action)**

NDOT, Nellis Air Force Base, and other stakeholders had no issues to report.

11. **Discuss items for next SQMC agenda**

The next SQMC meeting will be held on Tuesday, May 12, 2026, at 11:00 AM.

12. **Comments By the General Public**

A period devoted to comments by the general public about matters relevant to the Regional Flood Control District Stormwater Quality Management Committee jurisdiction will be held. No vote may be taken on a matter not listed on the posted agenda. Comments will be limited to three minutes.

To hear, observe and participate in the meeting, a member of the public shall use the remote technology system by following the MS Teams instructions listed above to present their comments to the SQMC. Clearly state your name and address and spell your last name for the record. If any member of the SQMC wishes to extend the length of a presentation, this will be done by the Chair.

All comments by speakers and email should be relevant to the Regional Flood Control District Stormwater Quality Management Committee action and jurisdiction.

No comments were received.

John R. Tennert
Environmental Mitigation Manager
