- Program to clean floor only or floor, walls and waterline
- Patented i-Mapping Technology
- Hook included for easy removal from the pool

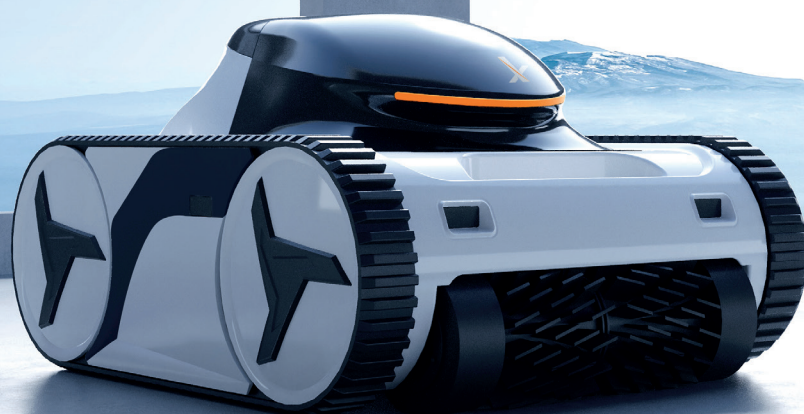

Since its launch in 2022 the X-Warrior Cordless Pool Cleaner has proven itself as the future of pool cleaning and presents a game changing option for the trade and pool owners alike.

With up to an impressive 8 hours of endurance our versatile Pool Cleaner is suitable for all pool sizes, finishes and user requirements. Whether you need infrequent or daily cleans the model performs every time, with timer-delay and a selection of pre-programmed cleaning times of 30 mins,

one hour and two hours the X-Warrior can be programmed to suit you. Unlike other cleaners the X-Warrior plots a path before it starts to clean, using its precise Gyroscope motion sensor and six probes it gathers spatial data to plot its path and avoid any obstacles.

No more tripping over cables at the edge of the pool, as it completely cordless you just plug the cleaner in to recharge when required.

- Long battery life from 3-8hours
- Charging time from 2-5hrs
- Timer-delay function
- Can be managed via the App, to offer a higher degree of cleaning options tailored to you
- Comes with a hook for easy removal from the water
- Magnetic basket collects leaves and small debris
- Travels at 12m/min
