Durham, NC 

OVERVIEW

Product Design professional with 8 years experience, including 4 years with enterprise SaaS products. Experienced creating design systems, AI-powered workflows, user-centered digital experiences, collaborating with Agile engineering teams, navigating regulation and translating business goals into intuitive interfaces.

Therapy iQ UX Designer

SEPT 2022 - APRIL 2026
Largo, FL (remote)

- Created prototypes and high fidelity mock-ups in Figma for interface updates and new features that improved stakeholder alignment and facilitated product development.
- Collaborated with a small but capable Agile development team through 90+ 2-week Sprints in Jira, ensuring quality of design detail execution and experience.
- Conducted user research with new and existing software users; collecting and analyzing feedback through a user feedback portal to prioritize product changes.
- Ensured ePHI security and user accessibility with WCAG 2.1 AA, ADA, HIPAA guidelines.
- Developed a unified design system in Figma to enable component creation and interaction design for the feature-rich platform, accommodating a wide variety of use cases.
- Led user experience design of new AI-enabled features.
- Redesigned financial and healthcare workflows for accuracy, clarity and efficiency.
- Overseen the design and creation of multiple company websites in Webflow.
- Mentored and managed a design Intern, overseeing projects and design direction.

100K Ideas Designer & Project Manager

APRIL 2018 - JULY 2020
Flint, MI

- Helped 50+ clients visualize their business and product ideas through brand exploration, marketing graphics, packaging design, UI wireframing, product illustration and more.
- Managed projects for 25+ clients, ensuring quality and timely execution of deliverables.
- Worked directly with clients to familiarize them with our process, onboard them through an interview, and organize specialist team members including engineers, marketers and product experts; who can help them move their idea forward.
- Created business assessments comprised of competitive market research, existing IP research, and evaluating potential barriers and opportunities for a product, service, or social impact project.
- Internally worked on data visualization, process flow mapping and office graphics.

Hasbro Design Intern

JAN 2017 - MAY 2017
Pawtucket, RI

- Responsibilities included rapid concept generation of NERF blasters and accessories through to producing high-fidelity product mock-ups across a wide range of brands.

EDUCATION

Designlab UX Certification

JAN 2021 - MAY 2022

- Worked with accomplished UX Designers to hone my craft in digital design research, testing, aesthetics and user experience best practices.

College for Creative Studies BFA Product Design

SEPT 2013 - MAY 2018
Detroit, MI

- Bachelors Degree training in Product Design process and principles.
- Held multiple jobs on campus while I studied including Woodshop Technician, Social Media Ambassador and Teaching Assistant.
