“Looking for a fast paced organization
passionate about accessible & inclusive design.”

experience

UX Engineer @Harmony Youth Collective

July 2022 – June 2024

- Led the rebrand of a local non-profit children's musical program
- Complete website design and development
- Digitalized all processes through implementing a user portal for accessing resources and payments

UX Designer @Dropbox (Capstone)

January 2022 – June 2022

Award for The Best in Technology

- Drove the end-to-end process designing Dropbox Clip—an OS-agnostic multi-device clipboard
- Delivered user research on Gen-Z workflows, defining attributes and technological habits
- Produced a high-fidelity interactive prototype, including mobile, tablet, desktop designs for iOS/ Mac OS, Android OS, Windows

Consulting Intern @RSM US LLP

June 2021 – December 2021

- A part of the e-commerce team, designing and implementing client web applications
- Front-end web development across platforms
- Designed interactive prototypes presented directly to clients, to later define design criteria

Teaching Assistant @UW HCDE Dept.

September 2021 – December 2021

- Interactive Systems Design & Technology course
- Led 90 students in and out of class, reinforcing Python lecture material
- Critiquing front-end and API code structure for web applications deployment on Google Cloud

education

University of Washington
