

QUAD BUMPER FOR FLEXIBLE LIGHT SHEETS

BACKLIGHTING // FLEXIBLE LIGHT SHEETS // AURAGAMI

PART #: AG2-075-047-QSB-P08, AG2-100-078-QSB-P08

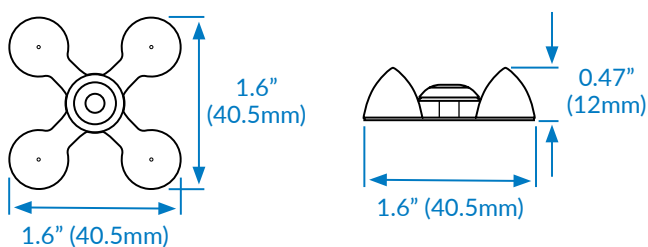

Product Description: Auragami Gen 2 Quad Bumpers are designed to support forward-facing materials.

HIGHLIGHTS

- Support up to 1600lbs each
- Silicone adhesive backing forms a secure bond to the Auragami Light Sheet's thick protective coating
- Integrated screw hole allows for single-step bumper and light sheet mounting
- New design prevents bumpers from rolling when sliding materials into place

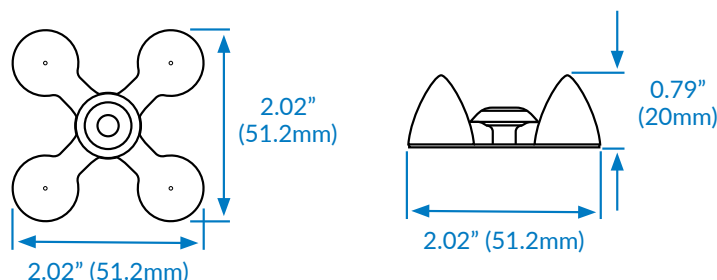

SPECIFICATIONS - AG2-075-047-QSB-P08 (STANDARD)

Compatibility	Use with AG2 single color and tunable White
Material Support	Up to 1600lbs per bumper
Mounting	Silicone adhesive backing and/or mechanical fastening with screw slot. Use bugle head screws for best results. 
Form Factor	Geometrically optimized to avoid light interference from nearby LEDs
