Auragami Elements (AG1E)

Economical Flexible Light Sheet

Single Color White

Product Description: The Auragami Elements Light Sheet delivers essential lighting performance at an unbeatable value - built for flexibility, engineered for reliability, and priced for scale.

Highlights

- Refreshed design based on the original light sheet
- Available in five single color white temperatures
- Measures 9.45 x 18.9 inches maximizing production tooling and raw materials
- Original XHP plug-n-play connections
- IP65 Rated for wet locations
- Cuttable down to a single LED, maintains UL Listing
- Accessories available separately to help eliminate waste and lower costs

Specifications Listed per full (9.45 x 18.9in) light sheet.

Power & Controls

Compatible with all control protocols via associated power and control components. Quality tested for low-end light output consistency across all LEDs (100-0% dimming with tight ANSI bin control).

Class 2 & UL Compliance

Use Class 2 power supplies with a maximum power output of 96W (per channel/circuit) to retain UL Class 2 Listing compliance. Best practices include allowing headroom for power supply longevity.

Auragami Customization Options

All Auragami customizations maintain the UL Listing. Minimum order may apply.

- Voltage
- Power/efficiency/brightness
- Specific color temperatures
- IP Ratings

- Custom sizes/shapes
- LED pitch and placement
- PCB material type, pre-cut sheets
- Pre-mounted to quick install substrates
