

# Trivium Interactive Graphic Design Position

## About Us

We're **Trivium Interactive**, a women-owned multimedia design and production studio based in Boston's historic North End. We dream up unforgettable interactive experiences for museums, visitor centers, zoos, and aquariums across the country. From massive touchscreens to immersive projections, we think big, build smart, and inspire curiosity.

Come join us at our studio close to North Station (137 Portland St, Boston, MA 02114). Peek at our work: [triviuminteractive.com](http://triviuminteractive.com)

---

## What You'll Do

You'll help craft digital magic:

- Designing sleek, accessible interfaces for **touchscreens, AR, gesture controls**, and **mobile platforms**
- Mastering typography and layout to make everything look *just right*
- Turning complex ideas into crystal-clear wireframes and user flows
- Collaborating with developers, animators, producers, and clients to bring ideas to life
- Making every screen not just pretty—but **intuitive, meaningful, and seriously fun to use**

## What We're Looking For

You're passionate about design and have the chops to prove it:

- A degree in Graphic Design, UI/UX, Interactive or Web Design—or something equivalent
- A beautiful portfolio showcasing interactive and visual design work
- Experience with **Photoshop, Illustrator, InDesign**, and **Figma**
- 3–5 years of professional experience creating digital media layouts

**Bonus points if you've dabbled in:**

- Print design

- Motion graphics

---

## The Details

You'll work closely with our Art and Creative Directors to prep stunning screens for interactive media. We're all about team spirit, idea sharing, and unexpected brilliance—so collaboration and organization are key.

This is an **in-person role** with **3 days a week in the studio** to ensure great mentorship and creative synergy.

---
