

A SMARTER WAY TO Protect Your Home from Sediment

WITH A FLUSHABLE SPIN-DOWN FILTER

Sediment buildup from well or groundwater can damage household appliances, clog systems, and reduce efficiency. VuFlow's point-of-entry Spin-Down Sediment Filters are designed to trap and remove sediment while protecting your home from wear and tear. These reusable filters offer an innovative, cost-effective solution for keeping your water clean and your systems running smoothly.

ECO-FRIENDLY
NO CARTRIDGES TO DISPOSE OF

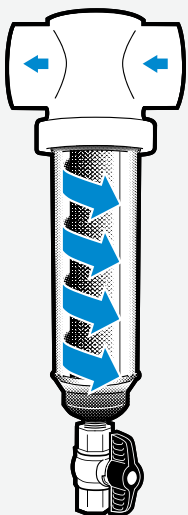

Advanced Sediment Filtration for Your Home

- ▶ **Ease of Use:** A simple flush clears sediment buildup, extending the filter's life. Choose the automatic purge valve option for effortless maintenance.
- ▶ **Reusable Design:** Durable construction allows for reuse, saving you money and reducing waste.
- ▶ **Protective Solution:** Shields appliances like water heaters, washing machines, and dishwashers from damaging sediment.
- ▶ **Customizable Options:** Select from various mesh sizes and add an automatic purge valve to meet your specific needs.

Protect your waterwell
and plumbing equipment
from damaging
sediment and debris.

Keep Sediment & Debris Out, Protect What Matters Most

VuFlow's Point-of Entry Spin Down Sediment Filters are ideal for:

Well Water Systems

Capture sand, grit, and debris commonly found in groundwater.

City Water Systems

Remove sediment and particulates that can enter through aging pipes and infrastructure.

Home Appliances

Safeguard against damage and minimize wear and tear.

Irrigation Systems

Prevent clogs and extend the life of your sprinklers and drip systems.

ECO-FRIENDLY

**NO CARTRIDGES
TO DISPOSE OF**

**NO COSTLY FILTER
REPLACEMENTS EVERY
FEW MONTHS**

**FLUSH FILTER WITHOUT
SHUTTING OFF WATER TO
THE HOME**

Why Choose VuFlow?

With decades of experience in water filtration, VuFlow delivers reliable, high-performance solutions trusted by homeowners and professionals alike. Our Spin-Down Sediment Filters are available in a variety of configurations to fit your specific needs.

Filter cartridge options to solve a variety of water problems.

POLYESTER MESH FILTER

Ideal solution for well systems with lots of sand.

STAINLESS STEEL MESH FILTER

Great for use on systems with abrasive particulate or sticky sediment including clay.

HEAVY DUTY MESH FILTER

Perfect for agricultural systems with very coarse sediment.

ADDITIONAL FILTER OPTIONS

HIGH PERFORMANCE FILTER

Designed specifically to resist chemicals or corrosives and can handle large volumes of sediment.

HOT WATER FILTER

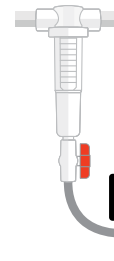

Provides heat resistance up to 220°F as well as chemical resistance.

FILTER ACCESSORIES

COVER GUARD

Inhibits algae growth inside of the filter cover.

AUTOMATIC FLUSH OPTIONS

Multiple options for your specific application.
