Featuring: Kelly Kruse Nelles, MS, RN, APRN-BC, Executive Director, National RN Practice Development Center LLC

Our presenter will:

- share examples of team-based care that promote health equity and assessment of complex social needs
- describe evidence-based, patient-centered care strategies that clinicians can use to advance health equity
- define shared decision-making and how it relates to patient-centered engagement that can support preventative care and cancer screening

Funding provided in part by the Funding Opportunities for CRC Screening Uptake Strategies (FOCUS) grant through Exact Sciences.
