

WACHSEN
PROFESSIONAL

PROPAGATION SYSTEM

Built for commercial growers, Wachsen Trays provide unmatched rigidity and reusability—delivering the professional foundation for consistent, high-yield propagation.

Perfect Together. Flexible with Others.

Wachsen Trays are engineered to match perfectly with Wachsen Domes—but are also compatible with most standard 10" × 20" propagation components.

TRAYS

(No Holes – Black)

Heavy-Duty & Reusable

Manufactured from rigid 1.4 mm thick plastic that withstands repeated handling and cleaning.

No-Hole Design

Retains water for optimal moisture control in hydroponic, soil, or clone applications.

Raised Channel Base

Promotes airflow and even water distribution for healthier root zones.

Industry Standard Fit

20" × 10" × 2 5/8" size compatible with most propagation domes, inserts, and racks; pairs perfectly with Wachsen Domes.

Reusable & Easy to Clean

Reinforced sidewalls resist bending for long-term, stable use.

PROPAGATION SYSTEM – TRAYS

Professional Strength for Reliable Starts.

Wachsen Propagation Trays are built for growers who need lasting performance and consistent results. With a rigid, 1.4 mm thick construction, these trays resist cracking and warping through repeated use. The no-hole design retains water and growing media, making them ideal for hydroponic, soil, or clone propagation.

PROPAGATION TRAYS – NO HOLES (BLACK)

50
COUNT

- ✓ **Heavy-Duty Construction** – 1.4 mm thick plastic withstands repeated handling and cleaning.
- ✓ **No-Hole Design** – Prevents leaks and retains moisture for controlled rooting.
- ✓ **Reusable & Stackable** – Rigid sidewalls allow stable stacking and long-term use.
- ✓ **Matte Black Finish** – Blocks light to protect roots and reduce algae growth.
- ✓ **Commercial Pack (50/Ct)** – Perfect for large-scale propagation operations.
- ✓ **Industry-Standard Size** – 10" × 20" × 2 5/8" fit for most domes, inserts, and racks; pairs perfectly with Wachsen Domes.

**Domes sold separately*

SPECIFICATIONS

Material	Rigid Plastic - Light Blocking
Thickness	1.4mm
Dimensions	20" × 10" × 2 5/8"
Color	Matte Black
Design	No Holes with Raised Channels
Packaging	50 Units per Case
Compatibility	Fits most standard 10" × 20" domes and inserts

Typical Applications:

- Seed starting and cloning in greenhouse or indoor environments
- Suitable for hydroponic and flood table systems
- Ideal base tray for Wachsen Propagation Domes
