Experience **PRODUCT CREATION STUDIO** **Seattle, WA**
Industrial Designer **Feb 2023–Jul 2025**

- Led end-to-end development of 6+ consumer and medical products including a fully automated toothbrush for children with disabilities with 300+ 5 star reviews and national recognition
- Translated client design requests into engineering specifications and product requirement documents, reducing non-viable design iterations by 30% and improving client approval cycles
- Managed product development timelines on 4 concurrent projects across global time zones with no direct oversight, consistently praised by PMs for reliability and ownership
- Designed and delivered client-facing presentations independently, often to C-suite stakeholders, resulting in accelerated approvals and 3 repeat client engagements
- Mentored junior team members, translating creative direction into actionable tasks, increasing intern engagement and delivery speed
- Recognized by leadership for presentation skills, empathy, and strategic thinking, contributing to team morale and client satisfaction

TEKNA - RE:BUILD MANUFACTURING **Remote - Kalamazoo, MI**
Contract Industrial Designer **Jan 2022–Jan 2023**

- Delivered 12 client-ready concept presentations adopted as internal benchmarks for excellence, showcasing end-to-end product development and stakeholder collaboration.
 - Improved internal alignment and client communication, through interactive visual documentation, enabling faster decision-making and boosting design team engagement
 - Led user journey mapping and stakeholder research for 7+ projects, including 3 survey creation and synthesis, to guide human-centered design for medical devices.
 - Visualized pain points and system diagrams to frame critical design problems during multi-team workshops and strategy sessions, improving decision alignment across teams
-

Education **UNIV. OF WASHINGTON | SCHOOL OF ART, ART HISTORY, + DESIGN** **Seattle, WA**
Bachelor of Design, Industrial Design, June 2020; GPA 3.81, *Distinguished Alumnus*

Graduation Speaker, President: Industrial Designers Society of America UW, Winner: IDSA Student Merit Award UW, National Team Lead: Design for America, President: Design Happy Hour, Campus Tour Guide, Winner: Gray Design Award 2019, 2019 Summer Institute in the Arts and Humanities Undergraduate Research Scholar: Creating Alternate Worlds, 2019/20 Undergraduate Design Researcher: Liquid Waste Management and Recycling

Skills Agile methodology, Jira, Confluence, User testing, Stakeholder management, Presentation building, Product Strategy, Market research, User-centered design & research, Sketch noting, Concept sketching, Prototyping, MVP development & iteration, CAD modeling, Rendering, Technical documentation

Tools Microsoft Office, Google Workspace, Adobe Suite, Solidworks, Keyshot, Miro, Figma, 3D Printing

Personal Cooking, Brewing, Crocheting, Tailoring, Upcycling, Ceramics, Gaming, Biking, Boulderling
