

# MICHELLE DUHAIME

UX/UI & AI DESIGNER

[duhaime.design](https://duhaime.design)  
michelleduhaime91@gmail.com

---

## SUMMARY

UX Designer focused on enterprise workflows, data systems, and integration-heavy experiences. Experienced in designing dashboards, configuration tools, and AI-assisted prototypes that simplify complex technical processes for end users.

## SKILLS

User Flows • Interaction Design • Information Architecture • Design Systems • Data UX • Wireframing • Prototyping • Persona Development

## TECHNICAL & TOOLS

HTML • CSS • JavaScript • React • Firebase • Figma • Webflow • Maze • GitHub • Claude

---

## WORK EXPERIENCE

|                                     |                       |
|-------------------------------------|-----------------------|
| <b>UX, UI Designer</b><br>ClassLink | <b>2022 - Present</b> |
|-------------------------------------|-----------------------|

- Design data health dashboards surfacing diagnostics such as completeness, validity, and uniqueness across educational data sources
- Create workflows for CSV/SFTP exports, roster management, and SSO configuration within complex integration systems
- Lead UX design for Partner Portal, simplifying multi-step vendor configuration and authentication workflows
- Reduce cognitive load in technical forms through improved hierarchy and progressive disclosure
- Collaborate cross-functionally with product and engineering to prototype and iterate using AI-assisted workflows and Firebase

|                                                |                    |
|------------------------------------------------|--------------------|
| <b>UX, UI Designer</b><br>Kalkomey Enterprises | <b>2021 - 2022</b> |
|------------------------------------------------|--------------------|

- Designed user flows and high-fidelity prototypes for education-focused digital products
- Conducted usability testing and contributed to early design system decisions
- Delivered UI improvements and visual refreshes across multiple projects

|                                     |                    |
|-------------------------------------|--------------------|
| <b>UX, UI Designer</b><br>Freelance | <b>2020 - 2021</b> |
|-------------------------------------|--------------------|

- Designed responsive websites, user flows, and UI systems for small business clients
- Conducted discovery sessions to define project goals and user needs

|                                                |                    |
|------------------------------------------------|--------------------|
| <b>Front-End Developer</b><br>Galileo Insights | <b>2019 - 2021</b> |
|------------------------------------------------|--------------------|

- Built and maintained front-end features using HTML, CSS, JavaScript, and React
- Customized WordPress and Shopify themes to support product and branding needs

## WORK EXPERIENCE (CONTINUED)

### High School Science Teacher

2015-2019

Metro Detroit & Detroit Public Schools Community District

- Designed engaging instructional experiences and translated complex concepts into accessible learning content
- 

## EDUCATION

### Designlab UX Academy

UX Design Certification, 500+ hours of design coursework

### Wayne State University

M.A. in Teaching

### McGill University

B.Sc. Agricultural & Environmental Resources
