THE HUB ST.PETE

MARITIME + DEFENSE TECHNOLOGY

The Hub is an initiative of and home to the St. Petersburg Innovation District

Hub members collaborate to foster job growth, economic development, learning and inspiration through the St. Petersburg Innovation District, a public-private partnership spanning almost 640 acres south of Downtown St. Pete. The District's offices are headquartered in The HUB and the area is a professional home to thousands of scientists, doctors, technologists, educators and entrepreneurs working together to solve critical challenges.

Explore the Innovation District

St. Pete Innovation District fosters a robust innovation ecosystem by:

- Attracting and supporting innovation-driven organizations, innovation cultivators and neighborhood-building amenities (economic assets).
- Facilitation of formal and informal relationships that have the potential to generate, sharpen and accelerate the advancement of ideas (networking assets).
- Creating public and privately owned spaces designed to stimulate connectivity and collaboration (physical assets).
