Paige Tisdale

Business Developer

Portland, Oregon, United States

Summary

When I'm not navigating the Portland real estate scene or shaping the future of landscaping with Dennis' 7 Dees, I'm probably convincing AI to help make the world a greener place (literally).

I believe that innovation and sustainability aren't just buzzwords—they're the future of our cities and businesses. Whether it's helping professionals in the landscaping industry leverage cutting-edge tech or brainstorming with architects on how we can support green buildings, I'm all about making things smarter and more sustainable (without sacrificing aesthetics, of course).

Passionate about:

Greening the world beautifully, one commercial property at a time
Exploring how AI can help businesses grow (and maybe even grow plants—still working on that one)

Strategic thinking, sprinkled with humor and a dash of Portland's quirkiness

Let's connect and turn good ideas into great business (or just chat about why we love Portland over a good cup of coffee). #

If you would like to know more about me, or what I do 720.662.5857
