## About Us

Magna Mining Inc. is a Sudbury-focused, base metal exploration and development company.

Magna Mining's key objective is to become the next nickel and copper producing company in Canada by executing a growth strategy that is focused exclusively on the historic nickel producing district of Sudbury, ON.

We intend to achieve this objective via the creation of a Sudbury focused, hub and spoke production model, with our existing Shakespeare project as the hub. The path to the creation of a significant new battery metals producing Canadian company is to execute a long term, multi-faceted growth strategy.

## Job Description

We are currently seeking experienced Underground Miners to join our team. As an Underground Miner, you will play a vital role in Magna Mining's success.

All Magna Mining team members are expected to work collaboratively with others, lead the way in health and safety, act with honesty, integrity, and foster an entrepreneurial spirit in pursuit of excellence.

### Responsibilities:

- Operate underground mining equipment in a safe and responsible manner.
- Adhere to all safety regulations and mining procedures.
- Conduct regular equipment maintenance and inspections.
- Collaborate with supervisors and other team members to continually optimize our performance and practices.
- Participate in team meetings and contribute to improving mining processes.
- And other duties as required.

### We Are Currently Seeking:

- 1 Shaft Miner

## Requirements

Qualifications: Formal Education, Certifications or Equivalents

- High school diploma or equivalent.
- Basic Underground Hard Rock Miner - Common Core
