

A vibrant, cartoon-style illustration featuring a central white rectangular sign with the text "HOW DOES PICKER PALS WORK?". Surrounding the sign are several anthropomorphic animals, each holding a pair of tongs or pliers. At the top left, a green and yellow striped snake is coiled around a tree branch. To its right, an orange monkey with a grey face is hanging from a branch. On the left side of the sign, a pink rabbit, an orange fox, and a yellow duck wearing a blue cap are visible. On the right side, a red raccoon, a zebra, and an owl wearing a green hat are shown. At the bottom, a red crab is smiling. The background consists of a light blue sky with white clouds and a green grassy field.

# HOW DOES PICKER PALS WORK?

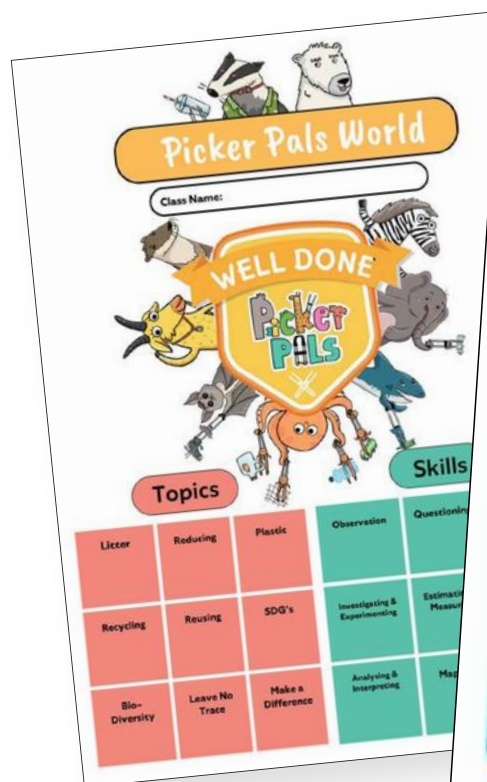

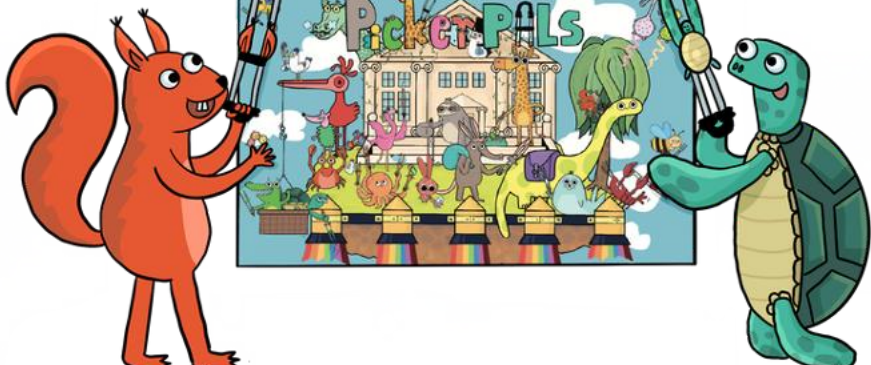

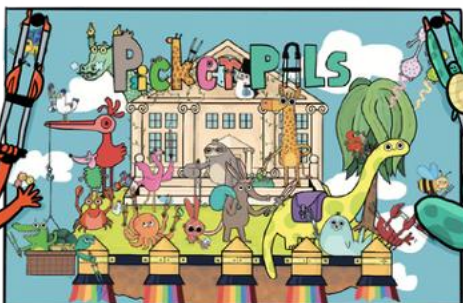

2

Each week, a different child brings home the Picker Pack and goes litter-picking.

3

Children share their stories with classmates about what they found.

4

The class enjoys the year-long Picker Pals Programme covering 12 environmental themes.

---

## **5** It's supported by year-round activations...

**Picker Pal Curriculum**

**Welcome Zooms**

**Live Meet-ups**

**Picker Pals TV**

**School Visits**

**Competitions**

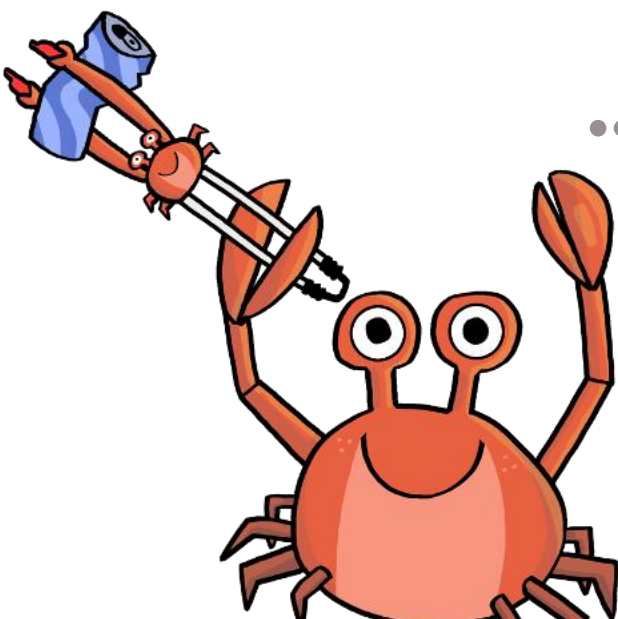

**Quizzes**

**Events**

**...to help children learn about the environment in a fun way!**

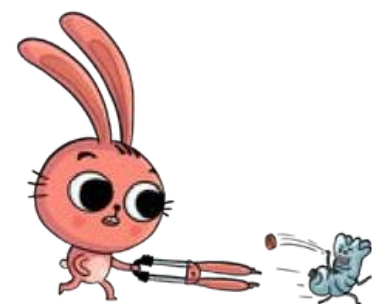

## And free resources..

We love creating and sharing useful resources for teachers to use during the school year.

You can find them on our website under Teacher Resources.
