About Lily Bradshawe

Jenny's well-heeled older cousin. Lily lives with her brother, Chris, and their parents in a smart house in the City. Her mum, Leslie is Jenny's much-loved auntie, and sister to Grace Many. Lily appears to have everything – her dad drives a flash car, she has a wardrobe full of clothes, tons of pocket money and an amazing laptop. Jenny initially sees her cousin as rather cool and snooty. Lily is good at everything she turns her hand at... and she seems to know it, too. Jenny has lost count of the number of cello concerts Lily has performed in, the netball matches she has won and the number of top marks in maths tests that she has notched up.
