

Qualified and Trusted Mortgage Loan Underwriters

In 2008, Congress implemented the SAFE Act, which was designed to enhance consumer protection and reduce fraud by setting standards for licensing mortgage loan originators.

The SAFE Act requires mortgage loan officers to pass a background investigation, submit fingerprints, and secure a mortgage loan originator number as part of the National Mortgage Licensing System. These identifying numbers are public information and must be produced upon a consumer request.

We think you should know the quality and integrity of our underwriting team without having to ask, so Spectra Federal Credit Union has listed our mortgage loan underwriters below. If you have any questions regarding the SAFE Act or the registration process, please contact us at (800) 526-6661
