

Located in the heart of Luxembourg City,
the 5-star Hotel Le Royal, a member of “The Leading Hotels of the World,”
is seeking a temporary employee for the following position:

ELECTRICAL TECHNICIAN – COMPLIANCE (M/F)

As part of a project to bring our electrical installations into compliance, we are looking for an Electrician Technician on a fixed-term contract to temporarily strengthen our technical team.

You will work under the responsibility of the Technical Supervisor, in collaboration with the existing maintenance team.

YOUR ROLE :

You will mainly work on the basis of a detailed electrical audit to bring our installations into compliance. Your tasks will include :

- Carrying out electrical work to ensure compliance (low voltage).
- Identifying and correcting electrical anomalies identified during the audit.
- Checking, testing, and validating the compliance of installations after intervention.
- Replacing or upgrading equipment (circuit breakers, sockets, appliances, etc.).
- Updating records and intervention reports (CMMS, audit sheets).
- Working in coordination with the supervisor to plan interventions.

YOUR PROFILE :

- Initial experience or solid training in electricity, electrical engineering, or maintenance (vocational diploma, vocational baccalaureate, technical college diploma, or equivalent).
- Knowledge of current electrical standards (ideally Luxembourg).
- Rigorous, detail-oriented, and strict adherence to safety procedures.
- Ability to work independently and in an organized manner, according to a defined schedule.
- Analytical mind to interpret non-conformities and propose solutions.
- Good communication and neat presentation, in a high-end hotel environment.

Interested candidates are invited to submit their application
