

eTSS - Travel Safety & Security Training

This five-module, self-paced e-learning course has been developed by our training team and is based on ILS' outstanding and hugely popular 'Travel Safety and Security' programme, which we have been delivering live since 2010.

An essential course for anyone travelling for work, regardless of the destination, this course delivers an interactive multimedia learning experience with contributions and expertise from our global training team.

Online self-paced e-learning

Diverse global training team

Multimedia format

Estimated 3.5 hours study time

Topics covered on our e-TSS course include:

- | | | |
|------------------------------|-------------------------------------|---|
| Travel Safety & Security | Journey Management Planning | Mental Health & Resilience |
| Individual Security Profiles | Accommodation Security | Situational Awareness |
| Risk Assessments | Travel Health Risks & Best Practice | Non-Violent Communication & De-escalation |
| Mitigating Threats | | |

The e-TSS training is suitable for those travelling to low-medium risk locations and can be tailored for clients with bespoke requirements such as specific security contexts, language options and accessibility needs.
