

ALEX

See what's slowing your projects down.

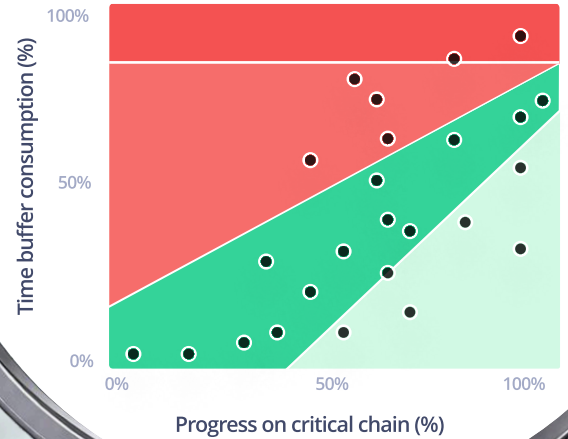

Alex brings your projects, resources, and timelines together in one clear view.

The **AI-Assistant** answers questions and provides actionable insights based on your live project data.

Your Portfolio at a glance.

Status diagram

Know earlier where things are getting critical.

See status, risks, schedules, and resources at a glance, so you can act before deadlines start to slip.

See what's realistically achievable.

Alex highlights resource bottlenecks and conflicts, so you can see which projects are realistically achievable with the capacity you have.

Get answers without digging through data

Projects, resources, and tasks are centralized in Alex, eliminating the need to manually search through Excel and other tools.
