WORK EXPERIENCE

Exaltitude, San Francisco, CA

Senior Software Engineer — 01/2020 - Present

- Led a team of 3 engineers to launch a new main page with 33% faster load time using React, Redux, and Apollo, which led to 27% growth in user retention
- Optimized site-wide load times by reducing latency by 23% by updating 70+ dependencies and 600 files in less than 2 sprints
- Reduced build bundle size by 39% by utilizing the Webpack 4 Terser mangler/compressor toolkit to improve DX & app load times
- Designed and implemented an intuitive and responsive website that streamlined user experience and improved overall functionality, resulting in a 15% increase in user engagement
- Highlight the most impressive achievements, and leave off any information that's irrelevant ([More examples in Chapter 6, Craft Impactful Work Experience Bullet Points](#))

Company, Location

Senior Software Engineer — *B2B Client [optional]* — 08/2018 - 12/2019

- Scan the job posting you're applying for the keywords, and be sure to include as many keywords in the job posting as you can ([How to in Chapter 1, Developing a Strategy for Targeted Resumes](#))
- Use action verbs ([Reference the Action Verbs Ideas List in Chapter 6](#)) to describe your work and quantify your work to show the impact

Software Engineer — *Ads platform [optional]* — 10/2016 - 07/2018

- Optionally create sections within the company or indicate the team if you need to show promotion, team switch, or acquisition ([More formatting examples in Chapter 2](#))

Company, Location

Software Engineer — 06/2014 - 09/2016

- If you don't have any professional experience, volunteer for a local charity, family business or your school. Offer to build them a website or help with their database
- Real-life work experience is the most important part of your resume—It doesn't matter if you are getting paid or not! ([More tips in Chapter 7, Overcome the Challenge of Zero Professional Experience](#))

EDUCATION

School Name, Location ([See Chapter 5, Education and Relevant Courses](#))

B.S. in Computer Science — 05/2014 [optional], GPA: [optional]

Coursework: You can include coursework relevant to the job you're applying for if you lack the keywords listed in the job posting in real-life work experience

Member, Women in Software Engineering ([More tips in Chapter 10, Diversity Recruiting](#))

SKILLS ([More examples in Chapter 4, Maximize Your Skills Section](#))

Java, Python, Ruby, JavaScript, Amber, AngularJS, React, HTML, CSS, MongoDB, MySQL

PROJECTS [optional]

Project Name — One-line elevator pitch ([Reference Chapter 8, Utilize Your Personal Projects](#))

- If you don't have direct work experience with the technology, think of personal projects you've done or coursework that you can include using the keywords. Otherwise, this section is optional.
