

# Reasons we're a **DIFFERENT** kind of childcare

Where children feel safe,  
supported and ready to  
thrive.

**Uplyft.**   
early learning

## Safety comes first

We are an ACF Accredited Child Safeguarding organisation, one of only two ECEC providers in WA. Keeping children safe is at the heart of everything we do.

## Backed by the Kiddo Program

We use the Kiddo Program to support your child's physical development and physical literacy skills.

## A team that reflects your community

Our multicultural educators bring understanding, respect and real connection.

## Familiar faces every day

Our long-term staff create stability, trust and strong bonds with your child.

## Protective Behaviours

We empower children with the skills to recognise and respond to unsafe situations, building confidence, resilience and personal safety.

## We never stop learning

Our educators receive ongoing training to give your child the best start. Supported by PRECI, we deliver the Pyramid Model in everyday learning, helping build strong foundations for children's social and emotional development.

## Purpose over profit

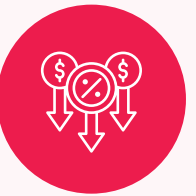

As a not-for-profit, everything we do is reinvested into children and families.

## Inclusion Support

We support every child's unique needs, abilities and background, so they can truly belong.

## Making quality care more accessible

Discounted rates available for families not receiving CCS\*  
\*T&Cs apply

## Real partnerships with families

We work alongside you, building strong relationships that support your child's journey and connecting your family to the right supports in the community.

# Strong Young Futures

More than childcare.  
A safe, inclusive space where children feel they belong and where their confidence and potential grow every day.
