

The Pediatric Palliative Care Coalition (PPCC) is pleased to provide the PPCC Care Plan Book created to help those caring for children/adolescents/teens with medical complexity. Recognizing how overwhelming and difficult managing all the tasks, appointments and information can be, our goal is that Care Plan Book will become a valuable resource for families, caregivers and medical professionals involved in this journey.

We would also like to thank the numerous volunteers who worked to make this comprehensive book a reality, including many different voices, both medical professionals and family members. Thanks, as well, for the beautiful design work by Scot Wallace Design.

Pediatric Palliative Care Coalition (PPCC) provides information, education and resources for families of children with life-limiting conditions, and for the medical providers and professionals who support them.

Mission

Provide resources to families, volunteers, and medical professionals caring for children with life-limiting illnesses.

Vision

Build a future where all children diagnosed with life-limiting conditions in have access to world-class palliative, hospice and end-of-life care.
