About the Mohawk Hudson Land Conservancy

The world is changing. Open spaces and wildlife habitat are being lost, with more extreme weather events and increased seasonal temperatures posing unprecedented challenges. The Mohawk Hudson Land Conservancy is a local climate solution, conserving and stewarding the lands and waters of the Mohawk and Hudson River Valleys for the benefit of people and the environment.

Our land protection efforts ensure clean air and water for a healthier Capital Region, while our work connecting communities to nature inspires the next generation of stewards for our environment.

By sponsoring MHLC, you are showing your customers that you care about the future of our region and the long-term health and well-being of our communities.

About your partnership

Partnering with the Mohawk Hudson Land Conservancy offers the opportunity to make a major impact linking the lands between the Catskills and the Adirondacks and connecting communities to nature.

Your sponsorship directly supports our work to maintain nearly 60 miles of trails that are open to the public across our 23 preserves, providing reliable access to nature for our communities. You will support our land protection work, making sure working landscapes from farms to forests are protected for healthy local food and a healthy environment.

By sponsoring MHLC, you are making new connections to our constituency, while showing your existing customers that you are doing something for our region's health and environment. Your support is a great way to expand your reach to potential new customers.
