EDUCATION

American University, Washington, DC
Bachelor of Science in Computer Science, Concentration in Multimedia Computing | Minor in Communication

WORK EXPERIENCE

Cognizant   June 2021-February 2024
Frontend Developer
- Delivered scalable user interfaces for multiple clients' web applications using React, TypeScript, JavaScript, and SASS to enhance the user experience for the clients' customer-base
- Partnered directly with cross-functional client teams through backend, design, quality assurance, accessibility, and business stakeholders, iterating features in Agile sprints
- Ensured WCAG-compliant, accessible websites using HTML and ARIA attributes to improve usability and regulatory compliance for client-facing applications

Cox Communications   August 2023-December 2023
Frontend Developer | Contracted by Cognizant
- Created four data-centric features to the Cox internal analytics dashboard using React, Next.js, and SASS in a team of five developers, enabling real-time insights into national usage and demographic trends
- Exercised Scrum methodologies, Bitbucket for version control and Jira for project tracking to consistently meet tight delivery deadlines
- Designed automated unit test cases to improve code reliability and reduce production defects
- Advised three other team members by hosting weekly trainings to increase the team's efficiency and productivity

CVS Health   January 2022-July 2023
Application Developer | Contracted by Cognizant
- Distributed four highly secure, responsive microsite web applications each over 7-8 months, helping over 200,000 customers understand and navigate their personalized insurance plans and offers
- Utilized Scrum methodologies and coded in HTML, CSS, and JavaScript as a member of the development team to prioritize business needs and requirements
- Facilitated with the quality assurance, visual design, and accessibility teams to ensure the expected deliverables are met with high quality
- Tested the website projects with multiple user stories to establish personalization and security and troubleshoot issues and bugs
- Performed walkthroughs of user stories to display the progress of the website projects to the business stakeholders

INTERNSHIP EXPERIENCE

Revature   August 2025-November 2025
Full-Stack Developer
- Revature's training program is a 15-week full-stack software engineering upskilling opportunity designed to empower candidates with knowledge on programming concepts and hands-on coding experience.
- Fulfilled coding challenges, mini coding projects, assessments, quizzes, 3 competency projects, and 14 evaluations to exercise and demonstrate programming languages, frameworks, techniques, and concepts including Java, Javalin, Jest, JDBC, JUnit, SQL, REST, Spring, Angular, and Test-Driven Development.
- Created a portfolio to showcase proficiency and new skills developed throughout the training program.

SKILLS

Languages & Frameworks: React, HTML, CSS, SCSS/SASS, Bootstrap, JavaScript, Typescript, SQL, MySQL, Next.js, Node.js Vue.js, Angular, Python, C++, C#, C, Java, Javalin, JDBC, Jest, Mockito, Maven, Logback, REST, Spring, p5.js, Mustache.js, Dart
UI/UX: Responsive Design, Figma, Adobe XD, Prototyping, UX Research, WCAG/ARIA, Accessibility
Development Tools: Git, GitHub, GitLab, Gitpod, Bitbucket, Jira, NPM, Yarn, AWS, WordPress, Flutter, Unity
Methodologies: Agile, Scrum, Waterfall, Test-Driven Development, Business-Driven Development
Other: Algorithms and Data Structures, Object-Oriented Programming, Unit Testing, Troubleshooting, Debugging
