Property Overview

DAY 2 SATURDAY · AUGUST 2, 2025

Nestled within the verdant expanse of the Ngorongoro Crater's outer slopes lies Gibb's Farm, a timeless haven made up of two family houses, 17 cottages, and over 80 acres of farmland. The gentle rhythm of each day gives visitors a sanctuary for the senses, with guests becoming part of a community steeped in a rich tapestry of local heritage and history.

Founded in the early 1900s as a coffee plantation by a German Duke, Gibb's Farm has since evolved into the oldest guesthouse in northern Tanzania, cherished by generations for its authentic serenity and memorable experiences.

Rooted in a profound connection to the surrounding communities and natural environment, the farm embodies a commitment to sustainability and cultural preservation. Through initiatives ranging from solar energy projects to organic farming practices, Gibb's Farm continues the legacy of its founders, Margaret and Jim Gibb, crafting a sanctuary where every aspect, from the lush coffee fields to the flourishing dairy and pig farm, reflects a harmonious balance between nature and nurture.

Gibb's Farm is perfectly positioned along the main safari route from Arusha to the Tarangire, Lake Manyara, and Lake Eyasi national parks, with the Ngorongoro Crater and Serengeti to the north. It is the ideal beginning, middle, or end while on a safari journey - a welcome retreat for a few days' respite, or for an extended getaway, the farm's location is truly exceptional.

Experience & Activities

To allow guests to fully experience the rhythms and beauty of the farm, community and nature, Gibb's Farm offers a variety of activities, adventures, and opportunities to explore on and around the farm. Farm activities include: coffee picking, morning baking, coffee roasting, bird watching, visiting the ten acre vegetable farm, farm walks, tembo fire tales, bike tours, egg collecting, and cow milking. Guests can also venture to the Ngorongoro Crater and/or Lake Manyara (day tour), hike the Elephant Caves, or visit a local community.

3 Nights

Location: Lamai Serengeti

Property Overview

Lamai Serengeti stands proud above the plains, around a tumble of giant boulders. You can see from this outcrop, the Kogakuria Kopje, for miles and miles. Over a million wildebeest cross these plains on their way to dodge the jaws of death in the Mara River, just down the track. On the Lamai Wedge, bristling with mammals all year round, there's never a dull moment. Above it all, our beautiful kopje is a sacred wildlife haven – and Lamai Serengeti's mission is to act as its faithful guardians.

Lamai Serengeti offers both communal and private tables, both in the open air and under cover. Picnics, sundowners, and bush breakfasts are offered for maximum enjoyment. An open air swimming pool offers outstanding views with its natural rock deck, and you can relax in the sunbeds around the pool. Three of the bedrooms have child-safe annexes, welcoming children age 8 and over, and children over 12 are welcome on bush walks, with the option of private guides.

Experience & Activities

Lamai Serengeti fulfils the promise of the Serengeti many times over - by car and on foot - in these remote, less-travelled short grass plains. This part of the Serengeti is bisected by the perilous Mara River, where once a year, between July and October, over a million-strong wildebeest and zebra throw themselves across its crocodile-infested waters, heading for where the grass is greener. This makes for spectacular predator and prey viewing on the banks in the late dry season.

What is less known about this part of the Serengeti ecosystem are the very healthy concentrations of lion, leopard and buffalo to be seen all year round. With expert guides and rugged 4x4s, you'll head out into the plains for big mammal discovery, and fantastic photographic opportunities. When the grass is short and safe to move through, guides lead groups out of the lodge, where small valleys, river lines and rocky kopjes make for frequent changes of scenery...and provide perfect cover for approaching wild animals.
