

**Diabetes Leadership Council and Diabetes Patient Advocacy Coalition Statement on
Congresswoman Kim Schrier becoming a House Co-Chair of the Congressional Diabetes Caucus**

September 21, 2026

“The Diabetes Leadership Council (DLC) and Diabetes Patient Advocacy Coalition (DPAC) are thrilled that Congresswoman Kim Schrier is becoming a House Co-Chair of the Congressional Diabetes Caucus. This is a natural extension of the critical work she is doing on behalf of the diabetes community, including introducing the bipartisan INSULIN Act to cap out-of-pocket insulin costs. We look forward to continuing to work closely with Congresswoman Schrier in her new role. We also want to thank Congresswoman Diana DeGette for her many years of service leading the Caucus and for all that she has done for people with diabetes,” said George Huntley, CEO of DLC & DPAC.
