

INSURANCE GUIDELINES TO OBTAIN AUTHORIZATION

All insurance companies are not the same. Some require that you call, while others you are able to obtain authorization on-line. The requirements that are the same across the board are below.

REQUIRED documents you will need when obtaining an authorization:

1. Patient Demographics
2. CPTs of all tests you are requesting
3. ICD-10 codes along with description
4. Current patient's history and documentation of prolonged diagnosis

After submitting an authorization, the case may go **peer-to-peer**. This means you will need to have a nurse, PA, MA, or the referring Doctor contact the insurance company.

If a case is denied, the referring office must call to overturn, payors will not allow SDMI to do this on behalf of the referring office.

Below is a list of the insurance companies that will not allow SDMI to obtain authorization due to contractual agreements. In these cases the request must come from the referring office.
