

DATASHEET

**CYBER TEST SYSTEMS**

**CYBER RAPID**

**DEPLOYMENT KIT**

**CTS-CRDK**

# The Cyber Test Systems Cyber Rapid Deployment Kit CTS-CRDK can be deploy in two different way

The first deployment mode of the Cyber Rapid Deployment Kit CTS-CRDK is the **Cyber Rapid Deployment Kit Cyber Surveillance Gateway CTS-CRDK-CSG** : Designed as an incident response solution, this configuration enables rapid cyber surveillance and threat monitoring capabilities.

## The Cyber Rapid Deployment Kit Cyber Surveillance Gateway CTS-CRDK-CSG integrates two different modes

### Passive mode

In this mode, the system monitors and analyzes malicious network traffic without actively blocking it. The Cyber Surveillance Gateway collects logs and performs full packet capture to enrich a Security Information and Event Management (SIEM) system. This integration provides comprehensive dashboards for analyzing overall network activity.

### Active mode

In this configuration, the system automatically blocks all detected malicious traffic on the network.

This includes the prevention of:

- Malicious Files
- Malicious IP
- Malicious Domains
- Malicious Websites
- Command & Control
- Unwanted Applications
- Cyber Threats

The **Cyber Rapid Deployment Kit Cyber Surveillance Gateway CTS-CRDK-CSG** is housed in a compact, rugged 7U military-grade case, ensuring ease of transport and mobility in the field. It is also delivered with a dual-screen display system to enhance operational visibility and user interaction

Description	Part Number
Cyber Rapid Deployment Kit Cyber Surveillance Gateway CTS-CRDK-CSG	CTS-CS-CTS-CRDK-CSG

The second deployment mode of the Cyber Rapid Deployment Kit CTS-CRDK is the **Cyber Rapid Deployment Kit Micro Data-Center CTS-CRDK-MDC** : This version provides a quickly deployable production network infrastructure, ideal for restoring communications during major Humanitarian Assistance and Disaster Relief (HADR) operations or to support communication infrastructure in active theaters of operations

## Deployment Mode

Cyber Rapid Deployment KIT  
Micro Data Center Multi-Connect  
CTS-CRDK-MDC-MC

Cyber Rapid  
Deployment KIT  
Micro Data Center  
Single-Connect  
CTS-CRDK-MDC-SC

Cyber Rapid  
Deployment KIT  
Micro Data Center  
Single-Connect  
CTS-CRDK-MDC-SC

The Cyber Rapid Deployment Kit Micro Data-Center CTS-CRDK-MDC supports :

- Data
- Voice
- Video

The communications modes supported by the Cyber Rapid Deployment Kit Micro Data-Center CTS-CRDK-MDC are :

- Microwave
- Radio
- Satellite
