

# Rupp Photo

## **Print Ready File Requirements**

To ensure the highest quality results, please prepare your files according to the following guidelines:

- **Image Setup**
  - Cropped and sized to final print dimensions
  - At least 150 ppi, 300 ppi is preferred for the best image quality
  - Color space: Adobe 1998 preferred or sRGB
- **File Formats Accepted**
  - .TIF, High-Quality .JPG, or .PDF
- **Borders**
  - Please include any border you'd like the print to have and will be included in the overall size
- **Color Accuracy**
  - The only way to ensure accurate color is with a color-calibrated monitor.
  - Some monitors come pre-calibrated, but many do not.
  - Without calibration, we cannot guarantee color matching and **refunds will not be issued.**
- **Additional Prep**
  - Any extra file adjustments or corrections may incur an additional charge.
