

Speed Limit Change on NE 126th Ave / E Walnut St

Heads up! The speed limit is being reduced along the main highway (126th Ave) soon.

After Polk County's review of traffic counts and crash history on the east side of town, the following adjustments are being made to the speed limits to provide a safer transition through the corridor:

30 MPH Zone Expansion

At approximately 1316 E Walnut St, the current 45 MPH zone will be **reduced** to **30 MPH** for westbound traffic. At the intersection of N Grant Ave and E Walnut St, the current **45 MPH** zone will also be **reduced** to **30 MPH** for eastbound traffic.

The new speed limits will officially go into effect once updated signs are installed in early December 2025.

Keep an eye out for the new speed limit signs and prepare accordingly for the lower speeds if you use this route. Below is a visual map to outline the changes you can expect to see.
