

CITY OF ELKHART, IOWA RESIDENT NOTIFICATION

CRF Pavement Preservation | November 2026

Dear Elkhart Residents,

The City of Elkhart has scheduled CRF pavement preservation treatment on portions of Grant Avenue, Walnut Street and NE 126th Avenue. CRF helps protect existing asphalt and slow pavement aging.

PLANNED SCHEDULE

Schedule Item	Details
CRF Application	Tuesday, November 3 - Friday, November 6, 2026
Traffic Control	Temporary flagging; one travel lane at a time
Road Access	No full closure; short delays and temporary restrictions
Post-Application Sweeping	Monday, November 9 & Tuesday, November 10, 2026
General Work Hours	7:00 A.M. – 7:00 P.M.

Weather and field conditions may require schedule changes. Follow posted signs and crew instructions.

STREETS SCHEDULED FOR TREATMENT

Grant Avenue — Including Areas Near the park and Shooting Star Childcare

Walnut Street / NE 126th Avenue — NE 38th Street to City Limits

WHAT RESIDENTS SHOULD EXPECT

Crews will work in sections with temporary flagging. Expect brief delays and temporary driveway restrictions. Keep vehicles, trash containers and sprinklers clear of active work areas. Do not drive on freshly treated pavement until directed by crews.

IMPORTANT: AVOID TRACKING MATERIAL ONTO DRIVEWAYS

CRF is a dark, oil-based treatment. Entering the treated roadway before it is reopened can transfer dark residue onto tires and concrete driveways. Please follow crew instructions.
