VERY YOUNG LEARNERS

5 – 10 YEARS OLD

Cambridge Bristol

Learning Through Communication

At our school, children learn English by using it in real situations. Even complete beginners feel supported with graded flashcards, interactive activities, and step-by-step guidance in reading, writing, and speaking.

Learning at the Right Level

We place students by developmental stage rather than age alone. This ensures every child is challenged but never stressed, learning alongside peers who help them grow and thrive together.

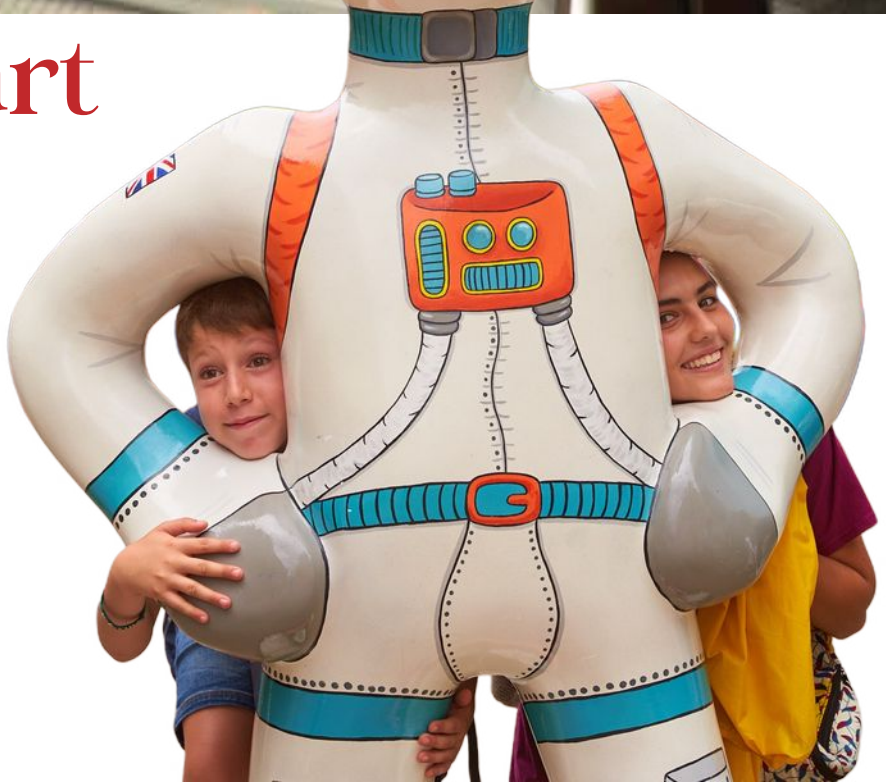

Fun and Confidence-Building

Lessons are lively, creative, and curiosity-driven. Children also enjoy activities such as sports, art, music, and trips — experiences that make learning memorable.

A Warm Start

We know starting school can feel overwhelming. Teachers pair new arrivals with friendly classmates, offer extra support, and stay in close contact with parents to make sure each child settles in comfortably.

Students aged 10 and under are fully supervised throughout the day. For off-site trips safety comes first: children wear lanyards with emergency details and stay with a dedicated staff member (ratios as low as 1:6 for our youngest learners). Very young learners join age-appropriate activities designed just for them.

At every step, our goal is the same: to make learning safe, fun, and inspiring— so your child can grow in confidence and thrive in learning.

Supervision and Care

Very Young Learner Programme includes.

- 15 hours tuition
- 4 afternoon activities
- One half-day and one full-day excursion each week
- Certificate
- Experienced welfare team
- All teaching materials
