

Integrated Compliance Management

Soleran Partners with CIHQ to Strengthen Healthcare Compliance and Accreditation

soleran.com

Overland Park, KS – Soleran, the industry-leading provider of Integrated Compliance Management (ICM) software for healthcare facilities, today announced a new strategic partnership with the Center for Improvement in Healthcare Quality (CIHQ). As part of the Soleran Partner Program, this collaboration delivers streamlined life safety, accreditation, and compliance solutions to healthcare organizations nationwide. The partnership will benefit CIHQ's hospital customers by giving them access to high-quality software solutions to enable efficiency and traceability related to the physical environment and life safety.

"CIHQ and Soleran support our nation's acute care hospitals and critical access hospitals as an indispensable ally in their accreditation and regulatory compliance efforts," said Traci Curtis, Chief Operating Officer of CIHQ. "This partnership provides hospitals with innovative technology solutions to enhance quality of patient care and optimize business operations."

Jill Allen, Vice President of Marketing at Soleran, said, "Partnering with CIHQ allows us to take healthcare compliance to the next level. By integrating CIHQ's Standards directly into our platform, hospitals gain real-time insight into their compliance status with the ability to generate reports instantly. This collaboration gives providers the clarity and confidence they need to maintain safer, more efficient facilities."

Through this partnership, healthcare organizations will gain discounted access to Soleran's full suite of compliance applications, with CIHQ's physical environment and life safety standards built directly into the software. This will offer hospitals integrated workflows, real-time reporting, and actionable insights to support survey readiness and regulatory adherence.

About Soleran

With over 20 years in software, Soleran provides Integrated Compliance Management (ICM) and facility compliance software. Its cloud-based, proprietary platform's complete suite of connected solutions "talk" to each other, offering streamlined processes, actionable insights, and robust reporting to increase efficiencies and provide a safer environment. About CIHQ

For more than 25 years, CIHQ's mission has been to create a regulatory environment that enables healthcare organizations to effectively deliver safe, quality patient care. CIHQ is the nation's fourth hospital accreditation provider approved by CMS to deem Acute Care, Critical Access, and Acute Psychiatric Hospitals as meeting Medicare Conditions of Participation. CIHQ also accredits Substance Use Disorder Treatment Centers (SUD), Free-standing Emergency Centers (FSEC), and Congregate Living Health Facilities (CLHF). CIHQ strategically partners with organizations that will provide value to their member health systems and hospitals.

Our programs strive to ensure that patients receive care in organizations that exceed minimum standards set forth by the federal government. CIHQ remains committed to delivering a customized and collaborative accreditation experience. As an excellent source for accreditation, CIHQ covers 26 programs, including acute care hospital, acute psychiatric hospital, and critical access hospital accreditation. To learn more, visit cihq.org, email mshaffer@cihq.org, or call 463-777-6646.
