SCHMALEN

SCHMALENBACH. DESIGN HANDMADE IN GERMANY.

We invite you with this brochure to discover some projects realized with furniture from Schmalenbach Design. Custom-built furniture, which also allow you to arrange your living, working and public space according to your individual wants and needs. This hand-made furniture is manufactured according to your dimension, material and surface requirements in our factory, which is located just outside of Cologne, in Oberbergischen Land.

Welcome to the world of Schmalenbach Design.

SCHMALENBACH DESIGN HANDMADE IN GERMANY.

Hand made in Oberberg: wardrobes, built in cabinets, shelving systems, sideboards, office furniture. What the 35 employees of our manufacturing in Gummersbach produce has been well recognized worldwide within a very short time, from Los Angeles to London and Amsterdam, up to St. Petersburg and Moscow.

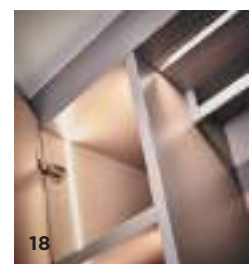

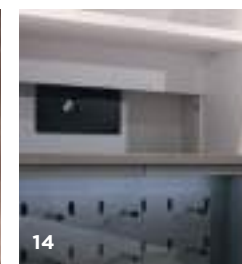

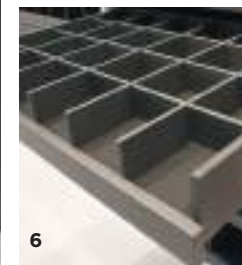

More and more people love the idea of creating their cabinetry individually and having it produced in high quality. Interesting details inclusive: e.g. tie and belt pull out, mirror pull out or drawers with integrated jewelry inserts.

Additionally it is an interesting experience to work with a young and engaged team of designers and architects, who make the realization of exclusive design furniture a real event. Make your try!
