JOHN DEERE

WESTERN TRACTOR

Supporting Your Operation

Providing customers and communities with solutions they need to be sustainable and profitable leaders in Agriculture. Local ownership making local decisions with our customer's best interests in mind.

Who we are and what we offer:

- » 90+ combined years as a John Deere dealer
- » 4 locations in southern Alberta with over 230 employees
- » State of the art training facility in Taber
- » Extended hours during seeding and harvest
- » Over 250 annual sponsorships in support of local communities and charities
- » Over 500 community volunteer hours annually
- » Equipment support and technology training

Our sales experts:

- » 13 territory managers; over 235 combined years of experience
- » Certified through John Deere University and specialized equipment training
- » Full line of John Deere agriculture, compact construction, turf and consumer products
- » Extensive shortline product offering
- » Premium, quality and value used equipment
- » On-farm equipment start-ups with optimization specialist support

Parts

- » \$23.5 million parts inventory between 4 locations and centralized parts warehouse
- » 35 parts technicians including 12 journeyman & 11 apprentices; over 400 combined years of experience
- » Parts technicians certified through John Deere University and vocational training
- » 2 Parts OnSite™ vehicles serving over 90 customers and covering 55,230 square kilometers
- » On-call parts available 24/7, 365 days; no charge after hours callouts
- » 80% parts fill over the counter, 90% next day fill with daily transfers between stores in as little as 90 minutes

Service

- » 82 service technicians including 44 journeyman & 38 apprentices; over 650 combined years of experience
- » 11 customer support advisors and 13 service support personnel
- » 4 Expert connect support specialists
- » 29 mobile service trucks; 4 semi tractors with trailers; 4 one-ton pickup/delivery vehicles
- » Deere factory certified technicians averaging 45 hours per year of specialized technical training
- » On-call service available 24/7, 365 days; no extra charge after hours callouts
- » Performax program on John Deere equipment and Performax guarantee on sprayers, combines and tractors

Precision Agriculture

- » 5 Precision AG specialists for AMS and Techgonomy
- » 2 Optimization specialists for equipment efficiency

Centralized Support

- » 5 Support advisors offering machine monitoring and technical support.

Terms and Conditions

Hauling

Discounted hauling rates are available for equipment located within a 300 km radius of a Western Tractor dealership.

Parts Discounts or Financing Option

Customer may choose one option between the parts discount or the NPNI program with John Deere Financial. The parts discounts apply only to parts purchased from and installed by Western Tractor and are contingent upon prompt payment of the related work order. Or the No Payments, No Interest financing offer is available through John Deere Financial, subject to credit approval and applicable program terms and conditions.

Failures on Recommended Repairs That Were Declined

If a failure occurs on a component that was previously identified for repair or replacement and the recommended work was declined, the Performax replacement equipment benefit will not apply. All major repairs must be completed by Western Tractor to qualify for the Performax Loaner Guarantee.

Exclusions and Non-Guaranteed Events

The Performax Guarantee does not cover failures or damage resulting from rock ingestion, foreign object damage, accidents, misuse, abuse, fire, vandalism, and lightning. Repairs resulting from these causes, along with any associated hauling, cleaning, or rental equipment charges, will be the customers responsibility.

Modifications to Equipment

Tractors, sprayers, and combines equipped with engine tuning software, performance-enhancing programming, modified or deleted DEF/emissions systems, or any other aftermarket powertrain related modifications are not eligible for Performax Guarantee coverage for "powertrain" system related failures.

These modifications do not affect eligibility for Performax Guarantee coverage on other qualifying machine components. In the event of a covered failure unrelated to the modified powertrain applicable Performax benefits will continue to apply.

If a powertrain failure occurs on a modified machine, this repair will not be covered under the Performax Loaner Guarantee. However, the customer will remain eligible to rent replacement equipment at the applicable rental rate, subject to availability.

Equipment Not Purchased from Western Tractor

Equipment not originally purchased from Western Tractor and without a documented service history on file with Western Tractor may be enrolled in the Performax Program. During the first year of coverage, eligible machine failures will qualify for replacement equipment at 50% of the applicable rental rate, rather than a complimentary loaner machine. Following the first year, and subject to meeting all program requirements, full Performax guarantee benefits will be available.

Why Producers Choose Performax Inspection.

Prevent Downtime

Identify wear and potential failures before they become expensive in-season breakdowns.

Extend Equipment Life

Routine inspections help maximize reliability and protect your investment.

Get Priority Support

Performax customers receive priority service during the most critical times of the farming season.

Reduce Emergency Repair Costs

Preventative maintenance costs significantly less than emergency downtime.

60%

*of emergency in-season
repairs occur on equipment
that did not receive a
Performax inspection.*

Stay in the Field When it Matters Most

A Performax Inspection helps reduce downtime, improve machine performance, and protect the long-term value of your equipment.

Downtime costs time and money.

A Performax Inspection identifies potential issues before they become costly in-season failures, helping maximize equipment performance and reliability.

Your Benefits

- + Performax Guarantee
- + Priority Service During Critical Farming Periods
- + John Deere Factory-Trained Technicians
- + 2-Year Parts & Labour Warranty
- + Reduced In-Season Breakdowns
- + Comprehensive Inspection Report
- + 24/7 Seasonal Support
- + Improved Equipment Reliability
- + Repair Planning & Cost Control
- + Peace of Mind

Fleet Offer

Every 4th Inspection FREE!

Bring in the fleet and SAVE!

When booking 3 Performax Service Inspections you get a 4th service inspection of equal or lesser value FREE!

Contact your Western Tractor service manager for details on this special offer!

Performax Guarantee

Back in the field fast.

When a **Performax Inspection** is completed on your combine, tractor, or sprayer, and all identified critical repairs are performed by Western Tractor, your machine qualifies for the Western Tractor Performax Guarantee.

A replacement machine will be provided to you with NO rental fees in the event that yours has a mechanical failure in the first season of use and cannot be repaired within 24 hours. The replacement machine will be available to you until Western Tractor has completed the repairs.*

UPGRADE ADJUSTABLE AUGER SPOUT

Adjustable Auger Spout - X9 and S-Series.

Here's an easy way to improve unloading accuracy. With an Adjustable Auger Spout, you can adjust auger positions right from the cab. That makes it easier to fill carts or trailers on the go. And it will reduce grain spillage that can lead to volunteer crops.

UPGRADE REMOTE SEPARATOR GRATE COVERS

Remote Separator Grate covers

The Remote Separator Grate Cover Precision Upgrade Kit allows operators to adjust separator grate covers from the cab as crop conditions change. Fully integrated with John Deere controls and displays, it helps optimize combine performance, increase capacity, and reduce chaff load on the cleaning shoe, which can improve shoe capacity and minimize grain loss in dry conditions.

UPGRADE AUTO UNLOAD

Auto Unload

Upgrade your combine with Auto Unload, the latest enhancement to John Deere's Machine Sync technology. By adding a stereo camera and controller, Auto Unload brings next-level automation to your harvest operation

It supports both targeted and broadcast applications and delivers effective results at speeds up to 15 mph (24.1 km/h).

UPGRADE BOOMTRAC PRO 2

BoomTrac Pro 2

The BoomTrac™ Pro 2 Precision Upgrade Kit improves spray accuracy and helps maintain target boom height, even in rough or rolling terrain. With an inertia-monitoring sensor to correct chassis roll, it helps reduce drift and improve application performance. Precision Upgrade Kits are also See & Spray™ ready when paired with the required BoomTrac Pro system.

UPGRADE

ACCURATE METERING

AccuRate Metering System Precision Upgrade

Seed up to 8x more accurately¹ with individually controlled AccuRate stainless steel electric meters. Made of 316-grade stainless steel, AccuRate meters provide better corrosion resistance than 304-grade stainless steel, lowering maintenance and repair costs.

UPGRADE

EZCAL

EZCal

EZCal is like pressing the easy button on your air cart calibration. With a push of the button on the side of the cart, EZCal automatically calculates and sends the meter displacement value to the cab eliminating user error. This lets you calibrate 75% faster than previous models and 45% faster than the leading competitor's calibration times.

SAVE DOLLARS AND DOWNTIME ON-FARM AIR DRILL PERFORMAX INSPECTION

Investing in an on-farm Air Drill Performax inspection pays off in both time and money. Instead of hauling your equipment into town, the inspection is done right on your farm—saving you the hassle, time, and fuel costs of transporting it. By addressing potential issues before they lead to costly breakdowns, these inspections help you reduce downtime during seeding, ensuring that your operation runs smoothly. Not only does this proactive approach save on expensive repairs, but it also optimizes the performance of your air-drill equipment, extending its lifespan and improving overall efficiency.

UPGRADE

EXACTEMERGE ULTIMATE METER UPGRADE

MaxEmerge™ Ultimate Meter Upgrade

Built for speed and precision, ExactEmerge™ uses BrushBelt™ seed delivery and dual electric motors on every row for accurate seed placement and uniform emergence. A high-performance vacuum meter and individual row shutoff improve efficiency, delivering up to 20% better population accuracy while maintaining planting speeds up to 10 mph (16.09 km/h).

UPGRADE

INDIVIDUAL ROW HYDRAULIC DOWNFORCE

Individual Row Hydraulic Downforce

John Deere Individual Hydraulic Downforce delivers row-by-row precision, applying the exact pressure needed for consistent seed depth in every soil condition. This advanced system maximizes emergence, boosts yield potential, and ensures your planter performs at its best.

UPGRADE

EXACTSHOT

ExactShot

John Deere ExactShot delivers precision seed placement with starter fertilizer applied directly onto each seed at the exact right moment. This advanced technology reduces waste, lowers input costs, and maximizes yield potential with unmatched efficiency.

UPGRADE

DOWNFORCE AUTOMATION POWERED BY FURROWVISON

DownForce Automation powered by FurrowVison

ownforce Automation is designed to achieve uniform emergence by maintaining the correct planting depth and reducing furrow collapse. Easy to use, this feature automates adjustments for various field conditions, simplifying the process and allowing you to stay in the cab. It accounts for ground contact and soil resistance to effectively optimize downforce.

"When every hour of harvest counts, Western Tractor's responsive service, strong parts support, and AG Performax Guarantee Program help keep our operation moving."

"In our operation, downtime simply isn't an option, especially during critical times like potato harvest. With a fleet of 12 tractors, along with a combine, sprayer, and other equipment, we rely on machines being ready to work when we need them. That's why we value our partnership with Western Tractor. Their service team is incredibly responsive, and their parts availability has been outstanding when time is of the essence. We've also taken advantage of the AG Performax Guarantee Program, and when an unexpected breakdown occurred, Western Tractor provided a loaner machine that kept our operation moving without missing a beat. Their commitment to supporting our business gives us confidence that we're never facing equipment challenges alone."
