## FEATURES

---

### Base

Each table is built from three principal components: a spun steel lower cone, and upper cone, connected with a steel column.

All components are mechanically fastened through a concealed hardware set.

This three-piece assembly allows for complete field disassembly, enabling in-place replacement of individual components should damage occur in service.

A concealed ballast is integrated within the lower cone to lower the center of gravity and resist tipping under lateral load, eliminating the need for floor anchoring.

---

### Glides

Standard with felt glides.

---

### Tops

The top is fabricated from 3/4" (19 mm) medium-density fiberboard.

Surfaces include:

**Wood Veneer** - Wood Veneer: Ash, Oak, or Walnut

**FENIX®** - Fenix with matching ABS Edgeband

**Standard Laminate:**

**Solid Color laminates** - all have matching ABS edge bands.

**Wood Grain laminates** - *Natural Ash, Nut Brown Cherry, Finnish Oak, and Formal Walnut* have matching ABS edge bands. All other wood grain laminates will be a self edge
