## FEATURES

---

### Platform

Dimension: 3 <sup>3</sup>/<sub>8</sub>" thick.

Constructed from a combination of MDF core, engineered with a steel support system to provide a solid, dimensionally stable foundation for the seating above. Available with premium surfacing:

**Veneer** - Ash, Oak and Walnut

**FENIX®** - 1.2mm Solid Core material is utilized to ensure backing is not visible at laminate joints

**Standard Laminates**

---

### Leg

Supported by a sculptural die-cast aluminum leg, engineered and designed exclusively for Faba Lounge. Precision die-cast for dimensional accuracy and structural integrity, the base delivers exceptional stability across single-seat, multi-seat, and sectional configurations. Available in Polished Aluminum or any of Davis' powder coat finishes.

---

### Glides

Black plastic adjustable glides come standard.

---

### Ganging

Platforms can be ganged on ends and front to end.

---

### Seats, Backs & Arms

**Upholstered seats, backs, and arms** are constructed over engineered plywood frames, selected for their strength and dimensional stability. Each component is layered with multi-density polyurethane foam, carefully calibrated to deliver firm, supportive contact at key load-bearing points and a softer, more cushioned feel at the surface for all-day comfort.

**Structural connections** between seat, back, and arm components are achieved through heavy-gauge steel connector plates, engineered to provide rigid, gap-free alignment across modular configurations. Plywood cushion substrates are mechanically fastened to the platform using threaded inserts and machine screws, ensuring a secure, serviceable attachment that maintains precise fit and finish over the life of the product.

**All foam components** meet the flammability requirements of *California Technical Bulletin 117-2013 (CAL TB 117-2013)*.

---

### Upholstery

Double Needle stitching details add a tailored and refined accent that highlights the lounge collections form.

Available in approved fabrics and leathers from the Davis Fabric and Leather Program, or in COM/COL. For approved materials, visit [www.davisfurniture.com/fabric-approval](http://www.davisfurniture.com/fabric-approval).

---

### Power

Power units come in black or white and are designed for platform placement.

A "J" tray is mounted and is used for horizontal wire management.
