

MUTANTS IN THE NOW

MUTANTS IN THE MINI: MERRY CRABMAS!

1ST & 2ND PRINTING UPDATES AND ERRATA

The following is a compiled set of errata and updates for *Mutants in the Mini: Merry Crabmas!*. Corrections for specific sections are noted in *italics*. Those designated as "1st" apply to the first printing, while those labeled "1st/2nd" apply to both.

UPDATED TRAITS (1ST)

These are sections updated to match errata for *Mutants in the Next*.

ANTHROPOMORPHIC TRAITS (PG. 10)

Mutants in the Next added traits to represent crustacean morphology: Periopodal and Chelipeds. Unless otherwise stated, these are not accessible *unless provided by your species*.

PREHENSILITY (PG. 10)

Prehensility: Chelipeds can evolve into Prehensility: Grasping for 5 GOO-P.

SPECIES UPDATES (1ST/2ND)

Each of these details a set of traits that either add or replace existing traits (if it has the same base name).

In addition, the "Thrush, Island" (pg. 9) should have its name updated to "Thrush, Christmas Island" due to updates in scientific classification since publication.

BOOB00K, CHRISTMAS ISLAND (PG. 5)

Minor Traits: Camouflage [forest]

BOOBY, ABBOTT'S (PG. 5)

Minor Traits: Heat Tolerance
[90°F]
